## PROGRESS SLOW M'NAMARA CASE; ONE TALESMAN EXAMINED

Two Days Spent With the  
First Juror, and He's  
Still in Doubt.

## ARGUMENTS LENGTHY Prisoner Calm, Attorneys Restless and Humor Marks Trial.

LOS ANGELES, Oct. 13.—After two days of court session, the trial of James B. McNamara for the murder of Charles J. Haggerty, a victim of the Los Angeles Times explosion and fire, Oct. 1, 1910, no juror had been selected, even tentatively, tonight and no decision had been reached as to the eligibility of the first man.

Although court proceedings moved forward without interruption, the magnitude of issues involved in the examination of T. T. Nelson, the first talesman, made proceedings slow.

At present, when he adjourned, arguments on Nelson's status remained unfinished. At the close of court, Sheriff William A. Hammel and a deputy escorted the prisoner, unaccompanied, from the hall of records, through the adjoining court house corridor and across a narrow street, where his brother, John J. McNamara, like James, under nineteen indictments for murder, is confined, awaiting his turn for trial.

A provision of the constitution of the state of California differing somewhat from the constitution of the United States sections of the states penal code, regarding the qualification of jurors, and a contest over the meaning of the record of Nelson's examination, complicated the trials points of contest which affected not alone the talesman under examination, but every prospective juror and for this reason, set a stormy contest.

The number courtroom scene, where opposing counsel argued for every point of advantage in the struggle over a man's life, was relieved once or twice by touches of mirthfulness, which seemed to appeal to the court. Once, when G. Ray Horton, a defense attorney who single-handed, made the long afternoon's argument for the state, assured the court that he was not intending "to swing an arraignment to you," "tire your honor," Judge Bordwell smiled broadly.

"No, no," he said, understandingly, and settled himself to listen further.

By chance one of the cases cited by Attorney Norton to show his views regarding the eligibility of talesmen was that of J. J. Arthur. In the trial of Arthur, now serving a fourteen year sentence in San Quentin penitentiary for bribery in the so-called San Francisco graft cases, which attracted national attention a few years ago.

Another case cited was the famous one of "Red Shirt Gordon," who with a band of fellow convicts, fought their way out of Folsom penitentiary in one of the most sensational breakups for freedom the West has seen.

**CONSTITUTION FIGURES.**

The constitution of California guarantees a free trial "for all parties in litigation," whereas that of the United States guarantees such rights to the defendant. The penal code of the state, under act of legislature, has introduced. Attorney Norton declared, is enabling intelligent men to say on the jury and allows any to do what a state of mind which will prevent acting with entire impartiality and "without prejudice to the substantial rights of either party." On these two propositions, Attorney Norton based his argument, contending first, that the rights of the state must be preserved as scrupulously as those of the defendants and further, that the criminal code must express provision for jury service in a man of Nelson's frame of mind.

Interrupted in a declaration that Nelson had declared that he was without bias toward the defense, Attorney Norton remarked that it was the defendant who had considered the defendant's own case with his express opinion that the trial would be blown up.

"The records," he read by Attorney Joseph Scott, of counsel for the defense, quoted Nelson as saying that he had an opinion concerning McNamara's guilt or innocence; that he had held such opinion for about four months and that it would take strong evidence to dislodge it.

Judge Bordwell announced that he would go over the record on this point.

Attorney Clarence S. Darrow, chief of counsel for the defense, made the argument against accepting Nelson as a juror after he had been challenged on ground of bias earlier in the day.

**DARROW REPLIES.**

"No section of the criminal code can change a man's constitutional rights," was his opening sentence. "A defendant must be tried by a jury, not by a ratification meeting. Never before have I seen an officer of the state asking the defense to take a juror. This man has shown that he has held an opinion for months as to the defendant's guilt or innocence and that it would take strong evidence to remove that opinion."

"The legislature, in enacting the penal code," added Darrow, "perhaps thought to take away some of the safeguards that surround life," and he remarked:

"I presume we could convince the state's attorney here if we got proof enough."

He intimated that a ruling adverse to the contention of Nelson would be considered for appeal and it was upon this point that Norton in his address reassured the court.

"No court of appeal," he said, "would ever undertake to investigate such a case unless there was great—"

"I don't think the court cares to consider the possible action of a court of review," interrupted Judge Bordwell and all counsel agreed.

While Attorney Norton was making his argument, Attorney Darrow walked up and down the equality-minded of the court room allotted to Judge, defense, and counsel, his hands

clenched in a fist.

At the close of the morning session of court, the grand jury, convened nearly a year ago and in continuous session since that time, made its final report and was discharged. This is the report which returned all the indictments and conducted the investigation of the Los Angeles Times explosion October 1, 1910. It was convened October 22, 1910.

# WRIGHT SAYS MAN TO FLY LIKE BIRD

Working on Biplane to remain Motionless Once in Air.

NEW YORK, Oct. 13.—Wilbur Wright, whose brothers, Orville and Lorin, are about to begin experiments on the North Carolina coast with a new type of flying machine, was here today. At his hotel, he discussed freely the experiments which he and his brothers are conducting.

"There is no secret about this new machine," he said. "It is simply a development of all that we have learned by a study of flying and experiments in flying. Anybody who has seen the buzzard fly knows that there is a method by which man can sustain himself in the air, and he gets there. When a bird can do it, a man can do it, as David Green said. Of that there is not the slightest doubt. The only difficulty is that nature provided the bird with the means to stay in the air without exertion, while man has got to study it all out."

"It may take years to accomplish this result. Perhaps we are all wrong in thinking that we have solved the problem. We will not know until we have given a practical test to our ideas. That is what my brothers have gone to North Carolina for. The world will know the result almost as soon as we will."

"There seems to be great curiosity about whether we expect to use a motor or not. Well, at the start, we don't expect to use one. The problem is to find out whether, once we are in the air, we can stay there for an indefinite period. Birds can do it. Why can't man?"

"At the same time, it must be remembered that birds cannot rise from the ground without exertion. They keep flapping their wings until they reach a certain height, then they stop working and sail along without further effort. If we can start a machine from a great height, maybe we can keep it in the air with a motor for an indefinite period. But if we have to start from the ground we will have to have some power to get us up. Once up, we can shut off the power and stay as long as we like, that is, if our machine proves successful. Whether we use a biplane or a monoplane really makes no difference, but I will say that in the experiments we are about to start we will use a biplane."

"A biplane enables you to take advantage of the slow current. We are doing all in the experiments what we did with our original machine, trying to work out the scientific side. The practical material side will take care of itself. It may take years for man to fly like the birds, but there is no doubt that he will finally accomplish it."

**PRESENTS TO OFFICIALS?**

WASHINGTON, Oct. 13.—Is it legal and do you approve offering public officials money under the name of a reward? Please answer."

This was the unusual ending of a telegram received by Dr. Harvey W. Wiley, the government's chief chemist, from the Florida Citrus and Vegetable Shippers' protective association, in relation to the unripe orange controversy that has come before the department.

Dr. Wiley took under advisement this question of public morals until he finds out, as he says, "what they are driving at."

**SCHOONER MISSING.**

KIEL, Germany, Oct. 13.—The racing schooner Nordstern, owned by Dr. C. Harries of Kiel, which sailed from Gibraltar on September 24 for Kiel with a crew of twenty-four men, is missing. The Nordstern was formerly Emperor William's Meteor III. She was built in America.

**KIDNAP ENGINEER.**

SANTIAGO, Chile, Oct. 13.—Pedro Aguirre, a mining engineer, part owner and member of the Spanish-American Iron Company, according to a report received here, was seized by bandits and held for a ransom of \$25,000.

# SMOKE TELEGRAPH IS PLAN FOR AEROPLANE

WASHINGTON, Oct. 13.—Experiments at the army aviation school at College Park, Md., are to be made with an aerial signaling apparatus devised by Lieutenant Roy C. Kirtland, the army aviator, and Charles Bowman, a semaphor expert. The apparatus is based on the crude semaphoric methods employed by the Indians. The Morse code will be used, the signals being shown by smoke emissions from carbons.

The carbon is shaped like a teapot and will be controlled by valve. The smoke will be generated by a chemical mixture. With this device it is planned to spell out words against the sky, to telegraph messages to the earth, it is calculated, with almost complete force of the wind, and it is believed that it will be possible to leave behind a trail of signals perfectly legible to men on the ground.

# REVOLUTIONARY CHIEF HAS HAD VARIED LIFE

**Dr. Sun Yat Sen Founder of Revolution Society in United States.**

SEATTLE, Oct. 13.—Although Dr. Sun Yat Sen, the leader of the Chinese revolutionists, has found it convenient to claim Hong Kong and Hawaii as his birthplace, he said that he was born at Hsiang-Shan, in Canton province, China. When about 14 years of age he was taken by his mother to Honolulu, where he went to school and college, where he became a student in Queen's college. After a second visit to Honolulu, he took up the study of Medicine in Canton and Hong Kong, dividing his time between those cities for five years. Twenty years ago, he began to plot to overthrow the Manchu dynasty, and every recent uprising has been blamed upon him by the Chinese government. There is a price of \$100,000 on his head.

In 1906 Dr. Sen founded in San Francisco the revolutionary organization which has branches in other American cities, and wherever Chinese live abroad. Nearly fifteen years ago Dr. Sen was kidnapped in London and held a prisoner in the Chinese embassy, but the British government compelled the embassy to release him. Afterward he escaped to Canton province, by way of Japan, and was captured from Tokio at the request of the Chinese government and then went to Singapore, which has since been the headquarters of the revolutionary movement.

# LAUNCH UPSET AND BANDSMAN IS DROWNED

**U. S. Tender and Gasoline Launch Collide on San Francisco Bay.**

**INDIANS FOR FARMERS.**

COLUMBUS, Ohio, Oct. 13.—Plans were set afoot at the first formal session of the first Congress of American Indians here today for training men of this race into the scientific methods of agriculture. This followed an address by J. E. Shield, government expert farmer at Darlington, Okla.

**ROUND HOUSE BURNS.**

SIDNEY, Neb., Oct. 13.—A fire which started shortly after midnight last night destroyed the Union Pacific roundhouse here together with eight large passenger and freight engines. The loss is placed at \$200,000.

**A CERTAIN CURE FOR CATARRH**

The mucous membranes of the nose and throat are exposed to the irritating influence of dust, impure air, etc., and for this reason are the places Catarrh usually first manifests itself. But these are simply exciting causes, the inflammation and discharge being really produced by an impure and irritated condition of the blood. It is well enough to use some local treatment to cleanse these membranes, but any one can readily see that if the inflammatory matter is left in the blood, such treatment cannot possibly have any permanent effect. S. S. S. cures Catarrh by purifying the blood of all impure catarrhal matter and irritating germs and at the same time builds up the system by its fine tonic effects. When S. S. S. has purified the blood, the mucous surfaces are all nourished and made healthy. There can be no inflammation of the membranes then, because the blood is pure, and every tissue receives nourishment instead of irritating matter. Our book on Catarrh will give proper advice as to what is best to use as a local aid while S. S. S. is purifying the blood. This book is free, also any special advice you may need you need S. S. S. is sold at drug stores.

**WILLIE DID IT**

LITTLE WILLIE of Shreveport, La., is not the same youngster who, according to the poet, "threw grandma into the lake, to hear what a splash the noise would make," but he has lately been mixing things up so at the Wulfford that his mamma promised the management that she would spank him.

Several days ago a man from Chicago, who had had a large evening fight, called for 10 o'clock. He came downstairs the next morning and wanted to know what they meant by awakening him at 8. An investigation was made, but no record was found of such a call on the books. The complainant was told that such a mistake would not occur again. The next morning he made a similar complaint, received the same assurances, and the third morning he kicked again on the same ground. That day he left the hotel.

The same day a man came downstairs with a pink card in his hand, bearing the usual formula that there was a telephone call for him in the office. None such could be found. Later another man brought to the tubes a white card, bearing the name of a supposed caller, but the clerk in charge knew nothing of such a person.

A little shouting in the lobby disclosed Master Willie in the act of appropriating cards and slips, and while questioning drew from the young man, who is not over 5, that he had been in the habit of knocking on some doors and poking cards under others, and then running to a corner of the corridor to enjoy hearing the result. Willie was not seen about yesterday.

From the New York Sun.

**SHOT WITH GOLD BULLETS**

Bullets of solid gold were used by Yaqui Indians in fighting against the Porfirio Diaz regime in the recent Mexican revolution, according to passengers arriving here on the steamer Curacao from Mexican ports.

In Mexican hospitals, where many wounded were operated upon, discovery of the golden bullets, it was said, was an ordinary occurrence, although few patients had received enough of them to pay the doctor's bills.—San Francisco Dispatch to New York Sun.

# WOMEN PERMITTED TO REGISTER NOW

**Jordan and Webb Give Out Same Opinion; New Blanks Ordered.**

SACRAMENTO, Oct. 13.—Women can begin registering with the county clerks at once, and be prepared to cast their votes at any general or special election after thirty days from the passage of the constitutional amendment No. 4, which is now part of the constitution beyond the shadow of a doubt. In the unofficial opinion of Secretary of State Frank C. Jordan, given out today, according to Jordan's finding, a constitutional amendment becomes a part of the constitution and is effective just as soon as it is carried by the electorate. This opinion was confirmed unofficially by Attorney General Webb.

Under the general election laws, however, the women must comply with the registration requirements, and the law prescribes that to vote at any election one must be registered at least thirty days prior to the election. This would prevent the women of the state from casting their votes at any of the local option and other elections which would be held throughout the state within the next thirty days.

The notorious suffragists can, however, begin registering with county clerks at once and be in readiness to exercise their newly acquired franchise rights, just as soon as the opportunity presents itself, according to Jordan.

While the official returns have not been filed with the secretary of state as yet and are coming in rather slowly, Jordan considers it practically certain that woman's suffrage has carried.

The matter will not be settled absolutely until the official returns have been canvassed and for this reason Secretary Jordan has appealed to the different boards of supervisors throughout the state to rush the returns to him with all possible haste.

# GET NEW BLANKS

LOS ANGELES, Oct. 13.—When county officials learned in dispatches today that Attorney General Webb and Secretary of State Jordan were of the opinion that women could register, Harry J. Leland, county clerk of Los Angeles, immediately issued orders for new registration blanks to take the place of the now obsolete forms bearing only the word "him." The new blanks will contain the descriptive word "him or her."

# 75 MADE HOMELESS BY FIRE IN BOUST CITY

**Chinatown Wiped Out in Quick Blaze Starting in a Laundry.**

(Special to the Republican)  
TAFT, Cal., Oct. 13.—Fire about 8:30 o'clock tonight that started in a laundry in a basement of the Chinese section of Boust City completely wiped out the Chinese quarter. The loss is under \$10,000 but between fifty and seventy-five people are rendered homeless.

The Chinatown is north of the Southern Pacific depot and occupies ground adjoining that jumped by the Stubbles-Sorelle bunch of squatters, which is now being litigated.

The origin of the fire was accidental. The flames spread with great rapidity and the Chinese poured from their shacks like rats from their holes. Several thousand dollars were lost.

The band took part today in the reception to President Taft at Oakland. When the ship's boat in which they were returning to the California in tow of a steam launch was within a few hundred yards of the fleet, the gasoline launch crashed into its side, turning it completely over and throwing the occupants into the water. About forty men were struggling to retain hold upon the overturned craft, and it was not until a roll call aboard the ship that the officers were certain that Charlie was the only man lost. No one saw him after the boat capsized.

# 3,000 AT APPLE SHOW.

WATSONVILLE, Oct. 13.—The California apple show here attracted 3,000 people from Salinas today, the day having been set apart in honor of the commission men from Los Angeles entertained visitors to the show with a concert by members of the delegation. The show will come to an end tomorrow. There will be a Mardi Gras carnival in the evening.

# INDIANS FOR FARMERS.

COLUMBUS, Ohio, Oct. 13.—Plans were set afoot at the first formal session of the first Congress of American Indians here today for training men of this race into the scientific methods of agriculture. This followed an address by J. E. Shield, government expert farmer at Darlington, Okla.

# ROUND HOUSE BURNS.

SIDNEY, Neb., Oct. 13.—A fire which started shortly after midnight last night destroyed the Union Pacific roundhouse here together with eight large passenger and freight engines. The loss is placed at \$200,000.

# A CERTAIN CURE FOR CATARRH

The mucous membranes of the nose and throat are exposed to the irritating influence of dust, impure air, etc., and for this reason are the places Catarrh usually first manifests itself. But these are simply exciting causes, the inflammation and discharge being really produced by an impure and irritated condition of the blood. It is well enough to use some local treatment to cleanse these membranes, but any one can readily see that if the inflammatory matter is left in the blood, such treatment cannot possibly have any permanent effect. S. S. S. cures Catarrh by purifying the blood of all impure catarrhal matter and irritating germs and at the same time builds up the system by its fine tonic effects. When S. S. S. has purified the blood, the mucous surfaces are all nourished and made healthy. There can be no inflammation of the membranes then, because the blood is pure, and every tissue receives nourishment instead of irritating matter. Our book on Catarrh will give proper advice as to what is best to use as a local aid while S. S. S. is purifying the blood. This book is free, also any special advice you may need you need S. S. S. is sold at drug stores.

**WILLIE DID IT**

LITTLE WILLIE of Shreveport, La., is not the same youngster who, according to the poet, "threw grandma into the lake, to hear what a splash the noise would make," but he has lately been mixing things up so at the Wulfford that his mamma promised the management that she would spank him.

Several days ago a man from Chicago, who had had a large evening fight, called for 10 o'clock. He came downstairs the next morning and wanted to know what they meant by awakening him at 8. An investigation was made, but no record was found of such a call on the books. The complainant was told that such a mistake would not occur again. The next morning he made a similar complaint, received the same assurances, and the third morning he kicked again on the same ground. That day he left the hotel.

The same day a man came downstairs with a pink card in his hand, bearing the usual formula that there was a telephone call for him in the office. None such could be found. Later another man brought to the tubes a white card, bearing the name of a supposed caller, but the clerk in charge knew nothing of such a person.

A little shouting in the lobby disclosed Master Willie in the act of appropriating cards and slips, and while questioning drew from the young man, who is not over 5, that he had been in the habit of knocking on some doors and poking cards under others, and then running to a corner of the corridor to enjoy hearing the result. Willie was not seen about yesterday.

From the New York Sun.

# SHOT WITH GOLD BULLETS

Bullets of solid gold were used by Yaqui Indians in fighting against the Porfirio Diaz regime in the recent Mexican revolution, according to passengers arriving here on the steamer Curacao from Mexican ports.

In Mexican hospitals, where many wounded were operated upon, discovery of the golden bullets, it was said, was an ordinary occurrence, although few patients had received enough of them to pay the doctor's bills.—San Francisco Dispatch to New York Sun.

**Samples of Piece Goods mailed to out-of-town customers on request.... We fill mail orders immediately on receipt.**

# Gottschalk's

**Nemo Corets** are controlled in Fresno exclusively by us.... We carry a most complete stock of all the new numbers.

# Autumn & Winter Suits to Please All Women

The selection of your winter coat will be our pleasant concern today.... And with all the distinctive types of coats represented here, we think it will be your pleasure, too.... We have every confidence of satisfying you, both as to quality and price. The New Polo Cloth Coats, in a dozen different styles and materials, are both attractive and fashionable. Broadcloth Coats are also much in evidence.... And we show an immense assortment.

We are always glad to have the most exacting of her sex come, because we know we can please and entirely satisfy her.... Here are hundreds of the season's best styles—of different materials and models—all attractive, splendidly tailored, and at prices that are absolutely unapproached in this city....

These are the recommendations of this suit store and we invite every woman to prove them for herself.

# Wonderful Values in Serge Suits at \$22½ & \$27½

## At 27.50

These are elusive models of excellent English serge mannan suiting.... The coats are near-fitting, with welt seams and small watch pocket, lined with Skinner's guaranteed lining.... Gored skirt with panel back. These are the suits that disinterested women inform us are not equalled in the city for less than \$35

## At 22.50

Splendid suits that are positively unmatched elsewhere for less than \$30.... The coats are plainly tailored in a very mannan model, the lining is of Skinner's satin.... The material is very good, and the workmanship is splendid.... These are suits that can not go out of style, as they have no distinctive features, they are very desirable.

### A School-Miss Coat

Misses' coats, for growing girls (size 13 to 17 years), diagonal mixtures, large sailor collar and cuffs of broadcloth in contrasting shades.... A splendid school coat... \$15

### GET NEW BLANKS

Los Angeles, Oct. 13.—When

**THE SPRING MAID," CAPTIVATING OPERETTA,  
IS FULL OF SPARKLING MUSIC AND FUN**

Mizzi Hajos and George Leon Moore, in "The Spring Maid," at the Barton tomorrow night.

The present seat sale at the Barton for "The Spring Maid," which comes tomorrow evening, is good indication

how much more generally the public is interested in the newest of theatrical productions than in past years. The seat demand has kept pace with the reputation of "The Spring Maid" in New York and its later favor in San Francisco, and has even surpassed the figures made by "The Merry Widow," although that work had been running two years in the East before it could be brought to the Pacific coast, and had played in most of the large cities of this country.

With "The Spring Maid" the listeners said to laugh with the characters and hum the familiar melodies after them more readily than for any light opera for a generation, and this appeal is said to come from the human natureness of the characters and

their action as well as the truly Vienna sparkle of music and fun.

It will be the first hearing of the much-praised little Hungarian prima donna, Mizzi Hajos, in the Western cities, and an unusual sense of enjoyment is expected from the warmth of the reports that have come before her.

Mizzi Hajos has been said to be one of the extremely few prima donnas Europe has sent to this country who combine the effectiveness of talent with beauty and youth. The San Francisco Examiner says: "She is precociously talented, this little Hajos girl, that I wouldn't be a bit surprised to see her develop into a sort of the great Cuban one of these days."

The surrounding company sent by Weich and Langenber, a new firm of producers, who now make their first offering to the theater-goers of the West, promises assurances of great excellence in the many names that are well and favorably known to the local stage; George Leon Moore, Tillie Salinger, Jack Raffael, Dorothy Maynard, and Theodore Bentz, who returns to San Francisco as musical director of "The Spring Maid" should be well remembered. Although there is a very large advance sale, good seats can yet be secured.

**Nordica Concert**

Music lovers are prepared to give Mme. Lillian Nordica a royal welcome when she appears at the Barton on Wednesday evening, at which time this distinguished prima donna will be heard in a song recital, assisted by Myron W. Whitney, the eminent basso, and Romayne Simmons, pianist. Mme. Nordica's concert tour just starting was the most brilliant in her career, and wherever she appeared she won fresh triumphs. The program for Mme. Nordica's concert is one of great beauty and variety, and is well chosen to display the singer's art. Among the novelties is that striking song, "Ich Grolle Nicht," in which Dr. Wulffler scored a success. Mme. Nordica in her repertory of this number brings to bear upon it all her dramatic and tremendously compelling art and never fails to receive an ovation at its close. The Buffalo Courier says of it: "A song few women would attempt and still fewer accomplish, and which she sang with such dramatic intensity that even Dr. Wulffler, whose performance of it was so wretched, might well take notice of her work."

The semi-sale for the Nordica concert will open this morning at 9 o'clock. The price scale for reserved seats will be as follows: Parquet, \$2.50; parquet circle, \$2.00; balcony, first three rows, \$2.00; next four rows, \$1.50; and balcony rows, \$1.00.

**TAX COLLECTIONS  
ARE NOT SO HEAVY**

Tax collections were not so heavy yesterday as on the other days this week. The day's collections are shown in the following list:

State and County ..... \$1827.15

City ..... 1480.67

Selma ..... 123.70

Coalinga ..... 109.83

Total ..... \$3540.81

The individual largest tax collection for the day was from L. F. Mortengard of San Francisco, who paid in \$442.25. Today the office will be open only until the noon hour.

Under the Sherman act, a contract for street grading awarded by the city trustees can be taken from the successful contractor by the interested property owners, providing that the work can be done for the same figure or less, and provided further that three-fourths of the interested property owners can be unanimous consenting to such an arrangement. The property owners, however, must take up the contract within ten days of the time it was awarded by the city trustees. The new contractor was awarded to Brooks Thursday night. Owing to the short time allowed, the work had to be rushed night and day and Braverman was forced to go to Merced to see two property owners and secure their signatures.

The city engineer said yesterday afternoon that he had made an estimate of \$11 for the work to the property owners in April, and that this was exclusive of the oiling. In making his estimate, he said he considered the hauling of the dirt logs, while Brooks said that he would do the work for \$7.50 because he could sell his dirt for 25 cents a cubic yard.

It was reported yesterday that grading work on Washington street and the Mariposa street extension had been done for \$11,500 a lot, as against the engineer's estimate of \$34 for McKenzie avenue, and Thompson Bros.' bid of \$21 a lot. City Engineer Jensen said, however, that neither Washington street nor the Mariposa street extension was oiled, accounting for the difference in figures.

When bids were called for the work by the trustees, three were entered. The bid of H. B. Bier for \$2785.60, it is said, was made in a few minutes because he had not known of the matter before. Another bidder besides Thompson Bros. was E. W. Redman, who set a price of \$2550 for the work. The city engineer estimated yesterday that it will cost Brooks \$600 for his oil alone for McKenzie avenue. This does not include the cost of spreading and rolling it.

**REV. HANSON SUED  
IN FORECLOSURE**

Suit to foreclose mortgage on lots 1-5 of Linda Vista tract was commenced yesterday by L. M. Dixon and four other heirs of Mrs. Constance M. Dixon, against Rev. Harvey S. Hanson and wife, W. G. Ulrich, C. H. Simmons, Mason Chase and W. G. Lane. The mortgage was given to insure payment by the Hanson of a note of \$2,000 of May 21, 1908, for 12 months with 12 per cent interest. The two defendants are sued because of interest held by them in the land. The sum of \$450 has been paid as interest on the note and the complainant asks for foreclosure on a claim with added interest compounded quarterly, besides \$350 as an attorney's fee.

**LAST RITES SAID  
OVER T. S. CONDREN**

Funeral services for Thomas Slattery Condren were held yesterday morning at 8 o'clock from St. John's Catholic church, Monsignor J. M. McCarthy officiating. A number of the relatives and friends of the deceased, including a number from the Knights of Columbus, of which order he was a member, were present. The pall bearers were W. J. O'Neil, Joseph P. Doyle, M. Kavanaugh, John McSharry, Leo Seibert, and Mr. Kerman.

**"THE ISLE OF KOW TOW"  
MATINEE TODAY AT TEAL'S**

Today is matineé day at Teal's Laugh Emporium, and no doubt a packed house will witness the delightful Japanese musical, "The Isle of Kow Tow." Like most Japanese musicals they are built to please the ladies, being elaborately costumed, together with scenic effects, catchy songs and pretty dance ensembles, and this show is strictly up to the standard in that respect. Pretty Margaret Davis is really bewitching as Princess Kimiko, and is heard in some splendid selections, especially "Pity My Pitiful Plight." In this scene appears on the stage in the big electrical Japanese pavilion, drawn by all the girls in pretty silk kimonos. This show is a splendid musical production, a treat for the children. Many parties have been arranged for today and a banner matinee we doubt not the result. The curtain time is 3 p.m., sharp, and all seats are reserved.

We Will Not Be Open This Evening  
We Will Close As Usual At 6 P. M.

**Special Sale of Semi-Tailored Hats  
At \$7.50 Values Up To \$12.50**

For today we place on sale about two dozen semi-tailored hats that range in value to \$12.50 for \$7.50. Not all are \$12.50 values. Some are worth only \$10.00 and some a little less, and added thereto will be some that were just brought from our workroom yesterday that we consider very good values at this price. You will find quite a display of them in our Tulare street entrance window. They are this season's approved styles in various colors. Some are made of silk, some are soft felt shapes smartly trimmed, some are velvet shapes draped in the white taffeta silk with large bow.

If you are thinking of getting a hat we believe it will be to your advantage to attend this sale today.

**Select Your Suit Or Coat Now While  
Assortments Are Large**

We advise those who have not as yet selected a suit or a coat to do so as soon as possible while the assortments are large. At the present time our stock is very complete in both suits and coats. In the suits we have a very large assortment of the tailored effects, also the trimmed effects in the most popular color, which is navy. We also have quite a selection of street coats as well as reversible coats.

**Special Today--\$14.95 For  
Coats That Are \$20 Values**

For today we offer while they last \$20.00 coats for \$14.95. There are only about five in all. They are made of a neat gray material in the new rough effect. They are splendid coats for street wear or riding purpose. They are good heavy mante with loose back, high collar, and the new sleeves.

**New Dress Skirts At \$5.95,**

**\$6.95, \$7.95, \$9.95**

We have quite a variety of dress skirts now. Within the last week or so we have received many skirts made of the new mixtures in the late styles. Also navy blue serge skirts. These range in prices from \$5.95 to \$9.95. We also have quite a selection of black voile skirts—some are tailored while others are handsomely braided or embroidered.

**Fine Values In Suits At  
\$15, \$21.50, \$25, \$30, \$35**

We are offering splendid values in suits at these prices and of course we have others that run much higher in price. If you are thinking of getting a new suit, we will ask you to kindly come in and let us show you what we can do for you. We believe our values are exceptionally good and we would like you to see how good they are. We have quite an assortment of tailored suits in the fancy mixed materials in grays and browns. Also the manish serges. Most of our suits are lined with Skinner's satin, which is guaranteed to wear for two seasons.

**WONDER**

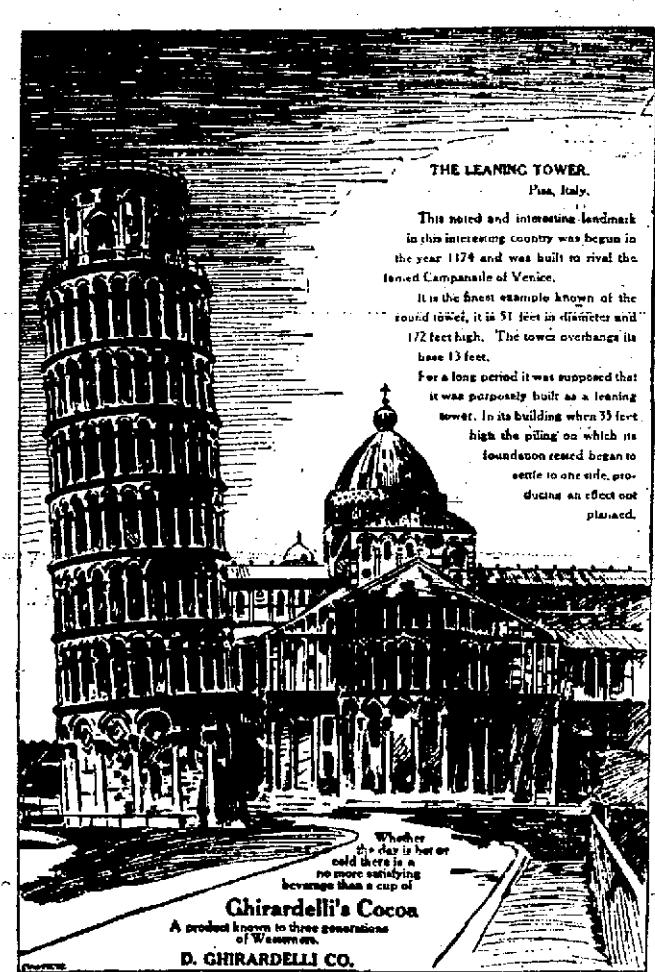

**THE LEANING TOWER.**

Pisa, Italy.

This noted and interesting landmark in this interesting country was begun in the year 1174 and was built to rival the Leaning Tower of Venice.

It is the finest example known of the round tower, it is 51 feet in diameter and 1/2 feet high. The tower overhangs its base 13 feet.

For a long period it was supposed that it was purposely built as a leaning tower. In its building when 33 feet high the piling on which its foundation rested began to settle to one side, producing an effect not planned.

Whether  
it is better  
or cold is a  
no more satisfying  
beverage than a cup of

**THE FAIR**

Today William Howard Taft, President of the United States, will, under the auspices of the Panama-Pacific International Exposition Company, break ground for a World's Fair in San Francisco in 1915.

There is something peculiarly fitting in having a world's fair in San Francisco. Probably no place in the world is there such a mingling of peoples from all parts of the earth in one municipal economy. In other sea ports, indeed, there are to be found aggregations of natives of many portions of the earth, but there they are to be seen kept separate in their own quarters, living as foreigners, their presence justified by the commercial or industrial demand that brought them there and clinging to their own institutions and customs. San Francisco is truly a cosmopolitan, an intermingling of peoples in one great pentecost, the melting pot of the Occident and the Orient. The confusion of the tower of Babel is being reflected—the curse of Noah upon his sons removed.

San Francisco is a melting pot more truly than in New York, because there the people are herded together from accident more than from choice. New York is their port of entry. They stay in that city not because of ambition, but because of inability to get farther or do better. But San Francisco is the goal of the ambitions of the European and Asiatics that swarm over its hills.

Today, the President of the United States will officially open the proceedings which will lead up to what will be the most remarkable gathering of men and men's products that the world will have ever seen. If more money is any measure, it is not likely that which is to be accomplished by the Directors of the Panama-Pacific Exposition will ever be surpassed. Seventeen million will be spent to get together representative men of every race, and to show, to each of these and to the people of the United States how science has enabled man to unite, with his own brains and his own brawn, the powers of nature to the greater comfort of the world.

The unanimity with which the people of California have taken hold of the "1915" idea is one of the most valuable assets of the fair. It will uphold the hands of the directorate in sketching out plans for the exposition on a scale worthy of this state, and nation and of the occasion, and then will impel them to carry them out to the letter and within their means. This public spirit will permit no faltering, no waste of energy, and will condemn selfish manipulation of the forces of the fair to the advantage of local interests or districts.

For many years San Francisco has been one of the most celebrated cities in the world. With the inauguration of the fair, there will not be a hamlet where the name is not known. California will be flooded with tourists. To whatever extent advertising is necessary to bring to this state new capital and new inhabitants, it will be furnished coincidental to the carrying out of the great scheme which is finally entered upon today.

To William Howard Taft, as the nation's first citizen, the state is indebted for his hearty co-operation in this great work. His welcome has been both enthusiastic and sincere. It is to be hoped that he will carry away pleasant impressions of Californians as California will have of him.

**RITUALISM**

Ritualism is an expression of humanity's love of following what has been well done. It is only occasionally that we admire originality. If every one was original and displayed his originality every day, all people would be eccentric and society would be in confusion. Thus is conventionalism a virtue and ritualism is but conventionalism upon the occasions of deep sentimentalities.

Birth and marriage and death; the more frequent occasions of communion with God and Providence, these have been seized upon by the conventional mind as proper for the use of ritual. They find in ritualism that peace that comes from contentment in a tried example. We quote great authors because we can not put things so aptly as they. We study great orators because their rounded periods seem to us the stuff of possible power in rhetoric. Thus in every line of human endeavor, there is an climactic, a supreme example, something which poor, ordinary, human endeavor cannot hope to surpass, and no boasting upon it the feeble praise of imitation.

The question as to whether ritualism is praiseworthy or not depends upon the question as to whether this recognition of perfection of form can be admitted in the expression of emotion. Is sorrow to be found only in inarticulate cries coming from the untutored heart, or can grief, true grief, find expression in such a refined work of art as the "In Memoriam?" Is prayer "the soul's sincere desire, unuttered," or is the Lord's Prayer but a type of what all prayer should be, a sacred path along which the mind can travel in reaching its desired goal?

Whatever one may say as to the theoretical worth of ritualism, there can be no denying that it plays and has played an immense part in both creating and perpetuating divine emotions. There are some souls in

whose ritualism only inspires the highest thoughts, while on the other hand, to many there is a cramping of the mind to use it, and the rites and ceremonies long established are meaningless or even hypocritical. To such as these religion, or sentiment of any kind, must have an apparent if not a real spontaneity.

Ritualism may indeed be said to always good except to that extent, if any, to which it becomes a superstition. Where those who use it are inspired not by an emotion akin to those in whose footsteps they are following, but are impelled by a vague fear of the consequences of not doing so, the rite is a fraud and a mockery. The Lord's Prayer is uttered by millions the world over, in reverent appreciation of what it means. Any other use of it would be a sacrifice.

**WATER DRINKERS HIT HARD**

New York Office May Serves a Problem

With an Envelope.

New York is just beginning to realize what it means to go without the common drinking cup. The new local law, which went into effect on the first of the month, has begun to reach out and amply the water drinking public in various odd ways that had not been contemplated by those who heard of it nearly a week ago.

It is necessary now to carry your own cup about with you, if you would be certain of getting a draught of October Crotton when attacked by the demons of thirst. To drink from the cup that some one else has used is a misdemeanor, if the cup has not been washed thoroughly between uses. The rule has been made to apply to all kinds of buildings where two or three water drinkers may be gathered together. Hotels, factories, theaters, public schools, public halls, railroad stations,erry-boats, jails, and all other public stamping grounds must abolish their common drinking cups. It even applies to many offices downtown, where an inverted water bottle and a single glass heretofore have done service for the entire office staff.

The health department intends to enforce the new regulation vigorously, but it has allowed a little time for replacing the common drinking cup. People have been slow about making the change, in some cases because they do not think the law applies to them. No less a water drinker than former Justice Augustus Van Wyck made the mistake of going to court without his individual cup. He was obliged to summon all his legal skill to obtain an ordinary glass of water. The court drinking cup had gone and it was only by the merest luck that an attendant found an untouched glass.

Van Wyck, apparently, had not heard why another lawyer, John V. Bouvier, Jr., had had the very same trouble, on the day before, and had been obliged to buy a glass in order to quench a thirst that impeded the progress of the case.

In striking contrast to the improvident lawyer is the ingenious office boy who has not missed a drink since the law went into effect. Business houses downtown have complained of an unprecedented increase in the demand for envelopes this week.

**BEST WORK AT 65.**

This is the Era of the Prepared Man,

Not the Young Man.

The terms show girls and chorus girls are used indiscriminately and interchangeably, and the general public has not learned to distinguish between the two. Yet they are unlike in nearly every important particular.

The chorus girl is a hard-working person of indeterminate age, who is sometimes pretty, nearly always cheerful, and, generally speaking, unselfish, as most cheerful people are.

The show girl is a headless marble statue of a draped feminine figure, probably of the fourth century B. C. of bronze and vase hundreds of fine specimens have rewarded Professor Norton's industry.

The buried city of Cyrene has, curiously enough, been one of the last old Greek centers of wealth and culture to remain untouched by the students of the classic times. Looters gullible

have been there, Arabs at one time, Moors at another, and so, in the course of the centuries Cyrene has been despoiled of its innumerable valuable heritages of its heydays. According to Professor Norton, the ravages for the most part have been confined to the tombs, the residences and the temples, because of the quality of the debris covering them, escaping.

Excavations under the direction of the American students have proceeded far enough to warrant the expectation that concealed in the old city is very likely a multitude of fine sculptures and other works of art. When the diggers have gone in the last two years, and notably last year, fragments of numerous fragments of beautiful Greek vases and literally thousands of terra cotta figures. On strength of such findings, located after many difficulties, Professor Norton bases his belief that the excavations of the next six months will be of inestimable importance.

Professor Norton makes London his first objective. There he will be at the head of a party sent out by the Archaeological Institute of America and financed in a measure by several Bostonians.

Previous excavations at Cyrene under Professor Norton's direction have uncovered an ancient town and residence to corroborate old Roman and Greek accounts of the magnificence that once prevailed in that historic city.

A total of about 200 acres has been partially explored. In several places the excavations have proceeded to a depth of twenty and thirty feet.

Last year on the acropolis the Americans unearthed a splendid example of a Greek temple. But their finest discovery was a headless marble statue of a draped feminine figure, probably of the fourth century B. C. of bronze and vase hundreds of fine specimens have rewarded Professor Norton's industry.

## GENERAL CONDITIONS

During the last 24 hours the high pressure area over the plateau has moved slowly eastward over the Rocky mountain and the pressure has continued to fall slowly along the Pacific coast from Bakersfield northward. cloudy weather is reported from Northern California, Oregon and Washington and rain has begun on the Washington coast. Some rain has fallen over the great plains from Oklahoma northward, over the upper Mississippi valley and along the Gulf and south Atlantic coasts. A 24 hour fall of 1.60 inches attended a thunderstorm at Kansas City. In all other sections the weather is fair with moderate temperatures.

The disturbance, now entering on the northern California coast will cause increasing cloudiness this afternoon and tonight probably with showers late tonight or Saturday. It will be warmer and cooler Saturday.

W. E. HUNNEMAN, Local Forecaster.

## LOCAL BREVITIES

Order your fruit and vegetables today.

Golden Glow Butter is best.

Ask for Daniel's Creamery butter.

Jersey Farm Dairy Co. Main 244.

Fruit tickets at Republican office.

C. K. Kirby, architect, Forsyth Bldg.

Dr. Phillips, dentist, Land Co. Bldg.

Cochell & Duff, dentists, Patterson Bldg.

Dressed poultry, J. S. Bradley's. Phone 257.

Try the Nickel Inn cigar. They are good.

Thorne, 311 J St.

Pine roosters and young legs of lamb for your Sunday dinner. Santa Fe Market. Phone 784.

Basil Knoblock was arrested by Police Detective, Farnam on a warrant charging him with battery.

Mary Marpoor, who was arrested on Wednesday on a charge of vagrancy, was released from the county jail yesterday.

Carl Sprague, appeared before City Justice Graham yesterday and pleaded guilty to a charge of vagrancy. He was sentenced to thirty days in jail.

Permit was granted yesterday to the Fresno General Construction Company to make alterations to the store front at 2025 Fresno street at estimated cost of \$250.

Orange Islands, Mr. Campbell orange bands have proven out. Some of the very best left. For maps and particulars see W. N. Rollin & Co., 216 Forsyth Bldg., Fresno.

Definitive judgment was awarded yesterday by Judge Austin to the suit of A. H. Ward against A. M. Gislason, both of Coalanga. The suit was for \$32,70 for blacksmithing work and for \$300.00 on a note.

Alfred L. and Herbert E. Hawking of Clovis filed yesterday certificate of partnership doing business as plumbers and fitters under the firm name of Hawking Bros. in the town named.

Certified copy from Sacramento was filed here yesterday of the incorporation articles of the Phorme Hill Investment company of Los Angeles, capitalized for \$10,000 in 100 shares and \$5000 subscribed. Directors and shareholders are J. T. Hill of Oceanside, Calif., W. T. Thorne and Margaret A. Guite of Los Angeles, holding 52, 36 and 31 shares.

Frank Anderson of Coalanga yesterday reported to the police that in the night some one had entered his room and stolen his clothes and hat. The thief left his coat off garments for Coalanga and he was forced to wear these to police headquarters. The thief neglected to leave a pair of shoes and Anderson borrowed a pair from his land lord and in this manner managed to reach the city hall.

## LOCAL BREVITIES

Walter Burns was arrested last evening and charged with being drunk and disorderly.

John Smith and William Langdon habitual drunkards, were taken to the county jail last night to the county jail.

The funeral of the infant daughter of Mr. and Mrs. Antonio Nobis, recently deceased near Clovis, will be held this afternoon at 1:30 from St. John's Catholic church.

Funeral services over Mrs. Katherine Scott will be held this afternoon at 2 o'clock from St. John's and Scott's chapel. Interment will be in Mountain View cemetery.

The fire department was called to the home of T. P. Montgomery at 211 Theta street last evening to extinguish a small fire which was caused by a gas heater.

The damage is estimated at about \$10.

Dismissal was entered yesterday of the suit of the Warner Auto company

against L. R. Eccleston and O. F. Longfellow. This was an attachment suit on a note for \$400 and for \$16.00 for goods delivered.

G. Wagner was arrested last night by Sheriff McSwain and charged with disturbing the peace. He is alleged to have returned to his home in Bakersfield in a drunken condition and to have thrown part of the furniture out doors.

The supervisors will consider this forenoon petitions pending for the changing of boundary lines as between Manning and Washington Colony, Empire and Vinland and Roeding and McKinley school districts. The board will also settle a dispute over the sale of the Canoga school district \$200 bonds issue.

Henry Firestone appeared before City Justice Graham yesterday and pleaded guilty to a charge of malicious mischief. He was returned to jail and sentence will be passed this morning. Firestone with two girls and another youth are alleged to have damaged a house in Bakersfield by cutting the screens off the windows and doors.

The Fresno Underwriting company yesterday filed petition for voluntary dissolution in accordance with a resolution of the directors voted on the 1st inst. The directors and shareholders are J. L. and C. W. Bush and A. D. Ewing. The company has no active corporate existence to warrant paying the corporation license and franchise taxes under the new tax law.

## PERSONAL MENTION

T. W. Cross of Magers spent yesterday in Fresno on business.

Roy Herrihill and Arthur Leino of Fresno were Fresno visitors yesterday. Mrs. W. Raiford and Mrs. E. F. Wilson of Tulare were shopping in this city yesterday.

J. A. Thorsen and P. A. Butler of Jensen, Nebraska, are spending some time in Fresno with the idea of investing in ranch property.

H. R. Hamri and family from Greenwood Springs, Colorado, have come to Fresno with an idea of settling here. Mr. Hamri is now negotiating for the purchase of property in this county. You're Hobab?"

Tonight there will be no service at the tabernacle. Sunday will be an extra costume play day. At 9:30 a.m. the Bible school will render its daily Doxology which will include special music, five short talks by different members of the school and a blackboard sermon by the pastor. At 11 a.m. in the new building will be dedicated in the evening the subject will be "Are You a Hobab?"

## PHILLIPS ANSWERS IN THEATER SUITS

Says Shenck Designed Contributed to Own Damage and Injury.

W. W. Phillips filed yesterday through San Francisco attorneys answers in the three suits of Samuel Shenck, who claims he was induced by false representations as to the chattered mortgaged property to buy into the Fresno theater after the failure of the Price regime.

In the first suit Phillips denies that in connection with the chattered mortgaged property he as secretary or as representing the Fresno Theater Company represented that it was the owner or in possession of the mortgaged property, or had the right to mortgage it, or that Shenck relied on his representations or in the mortgage itself to take an assignment of the mortgage.

Mr. Phillips avers on the contrary that prior to April 25th last, the day of the purchase of the mortgage, Shenck had information that the 73 chairs in the theater were the property of A. H. Andrews & Co. of Chicago, but that the theater company held them under a lease, that the chairs are worth \$100 and not \$1,500 and that Shenck did deliberately, premeditately and designingly contribute to his own damage and injury, if damage or injury was suffered, by reason of the purchase and assignment of note and chattel mortgage.

Phillips denies that Shenck was damaged by any representations that he made because he did not rely on any that were made, or in the statements of the mortgage, admitting that on April 1, 1911, when the note and mortgage were made, the defendant believed the chairs were the property of the theater company and as secretary executed the mortgage under authorization of the board of directors.

In the second suit with the theater company as a defendant, Phillips denies that he ever subscribed to 6,250 shares of the theater stock but says he bought 3,000 shares from T. A. Pettus which he afterward sold to S. M. Phillips, also that he bought 100 shares from W. C. White and still holds these shares.

Mr. Phillips gives a list of the share subscriptions to the capital stock of \$20,000 and declaring up to May 13th he owned no more than 100, pleads that he can only be held in the company's unpaid debts for a total of \$2,000.

Funeral notice later. No flowers.

## TWO PARENTS FINED IN JUVENILE COURT

By Holding Plunder Stolen By Sons, Are Held to Share Guilt.

Fines of \$10 were imposed yesterday by Judge Austin and paid by Ben Renna and Tony Persimone, who were prosecuted under the juvenile delinquency law for encouraging their sons to pilfer. The specification was that when the lads brought home cut flowers stolen from a florist, the parents abetted them in their act by not ordering the return of the stolen property. The defendants are Italians and pleaded guilty to the charge. Judge Austin asked them to give the fact of their punishment the greatest publicity in their neighborhood and stated that it would be the aim of the Juvenile Department of the Superior Court to discourage the practice of certain parents to send their boys during and after school hours into the streets, alleys and backyards, ostensibly to gather firewood but in reality to place them in the way of temptation and enlisting unscrupulous tricks that may attract their cupidity.

WILL POSITIVELY Remove hard and soft corns. S. B. Corn Paint, only at Smith Bros.

## REVIVAL MEETINGS TO CONTINUE NEXT WEEK

## No Services at Tabernacle Tonight; Sunday Will

## Be Busy Day.

At the regular meeting at the North Side Christian Tabernacle last night it was announced that the meetings will be continued each night next week. Last evening there were four new members added to the church. Rev. Charles L. Red preached from the text "Stretch forth thy hand." He said in part:

"Into the crowded synagogue where Jesus was sitting came a cripple and plead to be healed, but it was the Jewish Sabbath day, and the people, some of them, at least, were shocked that this man should ask Jesus to work on the Sabbath. The amazement rapidly changed to hatred when Jesus said to the man, 'Stand up.' Stretch forth thy hand,' and the hand was completely restored."

The Sabbath will consider this forenoon petitions pending for the changing of boundary lines as between Manning and Washington Colony, Empire and Vinland and Roeding and McKinley school districts. The board will also settle a dispute over the sale of the Canoga school district \$200 bonds issue.

Two commandments were uttered by the Maker that Sabbath day in the midst of those covert cowards. Always, everywhere, the command of Christ is "Stand forth and show yourself to the world." Matthew, the true collector, took up the call and leaving his desk became a worthy disciple to whom God gave the pleasant duty of telling one of the gospels, "Arise, Stand and obey me."

"Stand up" are the words of Christ to every person who could be of service to his fellow men. No silent, secret discipleship. Step into the ranks and stand shoulder to shoulder with the other soldiers.

"The same Jesus has taught that with God all things are possible. Stretch forth thy hand and who can foretell the suffering? It may alleviate, or how many wandering souls it may point to happiness and rest, only Heaven and I know."

Tonight there will be no service at the tabernacle. Sunday will be an extra costume play day. At 9:30 a.m. the Bible school will render its daily Doxology which will include special music, five short talks by different members of the school and a blackboard sermon by the pastor. # News From Central California

**PORTERVILLE CHIEF  
TO CLAMP DOWN LID**  
Restricted District Must  
Remain Dark for Rest of  
Isham's Term.

**CAPITALISTS OF DUCOR  
WANT NATIONAL BANK**

**First Application Denied,  
Promoters Decide to Try  
Again.**

PORTERVILLE, Oct. 13.—Chief of Police Isham has given notice that the downtown quarter of Porterville is to be cleaned up, the places closed, and that they will remain closed for the remainder of the time he occupies the office.

It is undoubtedly for the purpose of allowing the denizens of the half-world an opportunity to leave peacefully that the announcement has been made.

No general statement was made that the lid was to be pulled off this district of the city, although it must have been given out that no more was to be made against them for one day the owner opened up, after remaining dark for several days.

Other Isham stated that it is opposed to this measure, pointing out that once used, the places would remain closed as long as he heads the police force.

**SOCIAL GATHERINGS  
OPEN FALL SEASON**

FRESNO, Oct. 13.—Several social gatherings marked the yesterday afternoon opening of the fall season. Mrs. W. E. Spratt entertained at her home in Hill street in honor of Mrs. H. L. Pomroy; in spite of this summer visit made her debut into Porterville society. Mrs. J. C. Carty entertained at her School street home at an informal party given in honor of Mrs. J. S. Bradfield, who is visiting here for a few weeks. Mrs. Stoen, H. Stoen's wife, sat home in a room prepared for a bazaar which is to be given by the members of the Congregational Church. Mrs. C. A. Howell entertained the members of St. John's Guild at her home in Zante Heights, and Mrs. W. J. Perkins was the hostess at a gathering which was held for the Athletes' Association at her home in Worth.

Everything points to a very gay season socially during the coming winter.

**TULARE SHERIFF HOME  
WITH JAIL BREAKER**

**Mike Burke Brought Back  
From Virginia to Stand  
Trial.**

TULARE, Oct. 13.—Sheriff Collins returned from Florence, Ariz., last night with Mike Burke, Burke was wanted in Visalia for breaking jail. About a year ago seven men were sent to Fresno for robbing a store in Visalia. They were caught with part of the goods. Burke, who was one of the seven, broke out and escaped. A description of him was sent out to the offices of all over California and Arizona. He was taken in Florence, Ariz., and extradition papers were secured to bring him back to California.

Some months ago an application was made to the sheriff for the hand, an application which was denied at that time on the ground that the Duran community was not sufficiently developed to support such an institution.

Property suitable for the erection of a brick kiln already been secured and it is expected that the charter will be granted and the temple building constructed with little delay.

**LE GRANDE VISITED  
BY DAMAGING FIRE**

LE GRANDE, Oct. 13.—Fire, which presumably started from a spontaneous combustion, Thursday morning destroyed about half of the business section in this city. The loss is estimated at about \$25,000 and is partly covered by insurance. The fire was discovered in a small room to the rear of the Commercial hotel where a large quantity of paint was stored. The blaze quickly spread and burned briskly for an hour when it was finally checked by the corrugated iron covering of a livery stable. Citizens of Le Grande turned out in large numbers and the fire was fought by a bucket brigade, but their efforts were useless. The injured district will likely be rebuilt with modern fire proof buildings. The burned buildings are a two story building owned by Walter Lee, an American Indian of Fresno; two blacksmith shops and a garage, owned by J. H. Oglet past hall and barber shop, owned by P. H. Willis and a livery barn and livery stable owned by E. W. Blundell.

**KINGS GIVES WOMEN  
MAJORITY OF 177**

HANFORD, Oct. 13.—The complete returns from the constitutional amendment election in Kings county gave "Suffrage" a majority of 177 votes. The most recent precinct in the county—West End—was returned today and out of six votes polled "votes for women" secured two of them.

**ARREST AUTOISTS  
WITHOUT LIGHTS**

COALINGA, Oct. 13.—The local police officers are making an effort to enforce the automobile lighting and lantern and during the past week have arrested several autoists who have been driving their machines without lights after dark. Frank Nickerson was arrested last night and fined \$1 for breaking the ordinance.

**Mistakes  
May Happen**

by you—unless they do to everyone. If you eat too fast, do not masticate properly, or take food that does not agree with you, digestive disturbances are almost sure to come, and indigestion generally leads to very serious physical troubles.

**BEECHAM'S  
PILLS**

relieve and cure indigestion. They have a quick and tonic action on the stomach and its nerves, and so they give direct aid to digestion. They carry away also the indigestible matter. With their use dyspepsia, hiccoughs, bad taste, unpleasant breath and flatulence disappear. You should be careful and remember Beecham's Pills

The supervisors will begin the canvass of the votes on Monday but the right vote and comparatively short ballot will enable them, it is believed, to complete the count in two days at the most.

It is expected that Wartman and Farmer will make returns to the county clerk today.

**A GOOD MACTH**

The sturdy, active-looking boy could possibly marry that low-slung man, Patriarch Mai—My dear, we must be foolish to let any cost. He matches her bushy hair—From Nature.

**OUR TON  
2000 POUNDS**

**Save on Your  
Wood and Coal**

You can save on your fuel if you order in larger lots. On 5-ton lots of coal you save 5¢ a ton; on 5-cord lots of wood you save 50¢ on the cord. We can do this because it means less hauling for us. We save and you save.

**TELMLAN MAKES REPORT  
ON IRRIGATION PROJECT**

**Pollasky Reservoir Will  
Hold Enough Water for  
Madera County.**

TULARE, Oct. 13.—Telmlan, the Fresno engineer, who has been at work for the past two months surveying for a possible site for an immediate reservoir above Pollasky, met last night with representatives of the Commercial Bank, First National, Rosenthal-Kutner Company, and Tingle Drygood Company, who had employed him to do the work and made his report on the matter. He later went before the Chamber of Commerce and read his report, where it was discussed at length.

The report was to the effect that a dam of sufficient capacity to irrigate 200,000 acres of land in this country could be built above Pollasky. This dam would contain 4,000 acres of an average depth of 150 feet, and a height of 230 feet and 2,400 feet long. It would cover 350,000 acre feet and would have a capacity of irrigating 200,000 acres of land. There were 250,000 in Madera county. The estimate would include the 300 feet of water in the river belonging to Miller & Lux and all additional belonging to other parties. Allowing the 4,000 feet to flow through there would still be enough to irrigate 200,000 acres.

A report on the good roads was made by the committee who recommended that a proper organization be formed so that good roads may be built so that good roads may be built from the foothills to the valley and good intervals built radiating from Madera in different directions.

A committee was also appointed to meet Congressman Neelands on next Monday night and escort him to the Star theater, where the Chamber of Commerce will be awaiting him and where he will discuss with the members ways and means to secure water, good roads and a change of the mail route from Madera. A luncheon meeting is pledged for that night.

**FOWLER ITEMS**

FOWLER, Oct. 13.—The Japanese night school conducted by the First Presbyterian church held its first session Tuesday evening. There are eight boys attending now, with a possibility of more later.

Mr. and Mrs. Chase Ridgby of Coalinga are visitors of the week with the Bigby and Gibson families. In and around Fowler.

George Weens of Hanford was a business visitor in Fowler the fore part of the week.

The Griffen family received a visit this week from Tom Griffen and his sister, Mrs. V. Griffen Barrows. The former returned to Antioch Thursday while the latter intends to remain for another week or two, before leaving for home in Berkeley.

Mr. and Mrs. J. M. Wrightson of Belsey are visiting with their son, H. W. Wrightson, and his family. They will remain indefinitely.

**MALAGA MATTERS**

MALAGA, Oct. 13.—Mrs. E. J. Fry of Coalinga is visiting her parents, Mr. and Mrs. B. B. Shipp, and other relatives.

Mrs. A. M. Barnes of Selma, who has been visiting her son, A. C. West and family, returned home Wednesday.

Mr. W. D. Crawford, who has been ill for some time, was taken from surgery at Wednesday and for a time was in a critical condition. She is now improving slightly.

Mr. E. H. Laline went to Fowler Thursday to visit his mother, Mrs. Anna Scott, who was injured in a fall on Monday. Mrs. Scott is still unable to move.

Mrs. C. A. West has returned from a visit with relatives in Selma, and will spend a few days with her mother, Mrs. Jonas Price prior to leaving for her new home near Menifee.

The Ladies' Aid Society of the First Methodist church met at the parsonage Thursday afternoon. While the attendance was not large those present enjoyed a pleasant social hour.

Edwin La Rue, who has been ill for several days, is now able to be back in school.

At the Baptist church the usual services will be held Sunday morning and evening conducted by the pastor, Rev. Dr. F. H. Jenkins.

Miss and Mrs. Frank Nelson have returned from Santa Cruz, where they were called by the death of the former's father.

**LOCAL MASONS HOME  
FROM GRAND LODGE**

Honor is Paid Memory of the Late Wiley J. Tinnin, Past Grand Master.

Representatives of Fresno Masonic lodges to the Grand Lodge of the state of California, which has been in session at San Francisco during the last week, began returning yesterday and will probably all be back today. Among those who attended were W. G. Gray, the master of the Fresno Lodge; Superior Judge George E. Church, a past master, and B. H. Walker, a warden. Police Judge Herbert E. Briggs, master of the Palms Lodge, and Past Masters J. C. Pottle and J. P. Bernhard. Among other Masons who unostentatiously attended sessions of the grand lodge were H. H. Reis, C. S. Peeler, G. W. Smith and W. J. Harris.

Special session was taken by the Grand Lodge to do honor to the late Wiley J. Tinnin, who was grand master of the state a quarter of a century ago and died here during the last Masonic year. Judge Church delivered a eulogy, which eloquently and fittingly expressed the high regard of his fellow Masons for Judge Tinnin's services to the public and his profession as well as to the order. The character of Judge Tinnin was also referred to in the annual address of the grand master, Daniel R. Walker of Los Angeles.

**PASTOR TO SPEAK  
ON JAPANESE WAR**

SANGER, Oct. 13.—The first of the lectures to be given by Rev. Earl D. Shue was given last evening at the Baptist church. unusual interest attaches to the lecture to be given Saturday evening, as Rev. Shue will tell of his travels in Japan and the Japanese-Russian war. Rev. Shue is an entertaining lecturer and his first lecture was well attended.

**CIVIC PARADE MARKS  
MEETING OF VETERANS**

**Selection of Officers and  
Next Meeting Place To-  
day's Business.**

HANFORD, Oct. 13.—The feature of the San Joaquin Valley Veteran Association encampment, now in session here, was a big civic parade today under the leadership of L. S. Chapman, aided by H. M. and W. F. Bernstein, L. C. Trewitt, Joseph Carey and W. R. Newell, the procession was the best civic turnout that has ever been held in this city. In three divisions composed of fraternal orders, in one instance school children in another and veterans, sons of veterans and members of the Woman's Relief Corps, in the third, the parade traversed the business district to martial music of several bands, covering a total length of close to ten blocks, with fifteen hundred persons in line.

This afternoon at the Hanford union high school, the following program was carried out:

"Song Spangled Banner", School Recitation, Gertrude White, Song, "Dixie", School Piano duet, The Misers' Games, "Red, White and Blue", School Reading, Miss I. Moody, Piano duet, Irene Taylor, Alfreda Long Remarks by old soldiers.

8 p. m.—Camp fire opened with invocation by chaplain of the association, Rev. George McConnell.

Saturday afternoon the session closes. A business session will occupy the forenoon and the election of officers and selection of the next place of meeting will be taken up. In the afternoon the visiting members of the association and their wives will be welcomed at the regular sessions of the local post and relief corps, and given a farewell greeting after three days of entertainment here.

**SUES POUNDMASTER  
FOR KILLING DOG**

**Sanger Man Says Legal Redemption  
Period Not Observed; De-  
mands \$295.**

SANGER, Oct. 13.—Charging that the poundmaster killed his dog before redemption period, J. P. Shallenberger has brought suit against that functionary, H. E. Center, for \$295 damages. Shallenberger claims that the dog followed him to town September 12th. The next day he went to the pound to redeem the dog, but it had been killed. The city ordinance provides that empoisoned dogs must be held for two days.

**ST. JAMES' RECTOR  
TO VISIT COALINGA**

COALINGA, Oct. 13.—The announcement that the Rev. R. W. Rhames, rector of the St. James Episcopal church of Fresno has been placed in charge of Coalinga and the offshoots by the Bishop of the diocese will be received as welcome news by the Episcopalians residing in this district as it will give them an opportunity to attend a church service at regular intervals. Rev. Rhames will make his first official visit to Coalinga next Saturday evening at 7:30 in the evening. The preparations for the service are being made by the ladies of the St. Cecilia Guild of this city and a cordial invitation is extended to all those who wish to attend.

**NOTICE TO WATER USERS.**

The annual payments to the Fresno Canal and Irrigation Company under water rights are now due and if paid before the first day of November, 1911, will carry no interest. If not paid by that time, interest will be charged, thereby increasing the cost, and it is to the interest of all land owners so situated to see that the bills are paid before the time mentioned.

**PRESNO CANAL AND IRRIGATION  
COMPANY,**  
B. L. Montague Drew, Secretary.

All traffic between Fresno and Coalinga please go by Elkhorn Grade, as McMullin grade will be closed from October 15th until further notice, bridges being repaired. Thomas Martin, supervisor.

**FOR THAT HACKING COUGH**

S. B. Lung Tonic has no equal, only at Smith Bros.

## SON OF FRESNO WOMAN CONFESSES ROBBERY

Ferdinand Day Says He  
Committed Hold-Up to  
Get Story Material.

(Special to the Republican).

SAN FRANCISCO, Oct. 13.—Identified positively as the robber who held up and robbed Percy Stout, assistant superintendent of the West Coast Life Insurance Company, yesterday, as he was walking along Market street with Miss Edith Thornton, Ferdinand Day, 41 years of age, was arrested early this morning and later confessed the robbery.

Later, Day was identified by Harry Brewster, a driver for the Standard Mill Company, as the man who had waylaid him for the sake of robbery, but to gain "color" for an article which he intended writing for a magazine on how it felt to commit a hold-up.

Policemen David Johnson and Daniel Ewright saw Day standing at Mission street this morning. They recognized him from the description furnished by Stout and Miss Thornton, and placed him under arrest. At first he denied having been implicated, but at the Mission street station, where he was searched, loaded revolver was found in his coat pocket. He wore a black derby hat, but a white felt hat was found hidden under his vest. About his neck he wore a silk handkerchief.

Stout readily identified the prisoner as the man who had held him up last night and had apologized for his rudeness when Stout's young woman companion fainted with fright.

When confronted with this evidence, Day confessed to the robbery. Day refused to comment further on his flight, saying that he wanted to keep the news of his arrest from his mother, who lives in Fresno. He said that he was married, but has been estranged from his wife for some time.

## HIGH SCHOOL SOLONS OPPOSE BIG ARMY

Protection, They Determine, Must Come From Increased Naval Force.

Last night, the High School Senate chamber was the scene of a spirited meeting. The unusually large number in attendance helped to give that vim in snap which only keen competition can instill.

The subject of debate was: "Resolved, that the standing army of the United States should be increased." Affirmative, Crawford of El Moda of Modesto; negative, Bolton of Ky. Holman.

Two of the more important arguments advanced by friends of the resolution follow. First, Germany has recently shown some inclination to disrespect the Monroe Doctrine. Second, the raw recruits drafted in times of stress can not furnish an efficient fighting force.

A convincing point made by a speaker for the negative was, that since powers of real menace can approach us only by means of water, the navy should be increased, rather than the army.

The motion was finally lost, by a vote of 10 to 6.

The debate selected for the meeting of October 24th reads: "Resolved, that the National government should control and operate Alaska railroads."

## GUARD POINTS GUN AT COMMERCIAL MAN

That the Southern Pacific guards are ready to bring their firearms into action was the report that Henry A. Green, a traveling man of Los Angeles, made to the police last night. Green is staying at the Hughes Hotel while in Fresno. Last night he walked from the hotel to the depot with the intention of getting a train table. He attempted to walk down the depot platform from Tulare street, but was stopped by one of the railroad guards.

According to Green, the guard refused to allow him to pass and when he requested the man to show his authority, he drew a big gun from his pocket and pointed it at Green. The commercial traveler beat a hasty retreat and reported the affair to the police. He says he will swear to a complaint this morning against the railroad guard.

## "BATH TUB TRUST" IS FOUND TO BE GUILTY

**Sweeping Decision Against  
Use Made of Patent Is  
Rendered.**

BALTIMORE, Oct. 13.—In the United States Circuit Court here today Judge Roosevelt rendered a decision favoring the government in its dissolution suit against the Standard Sanitary Manufacturing Company and others in the so-called "Bath Tub Trust." Judge Richard concurred with Judge Rose, while Judge Goss dissented.

The inspection is as yet incomplete, having extended only to 13 public show houses, namely the Empire, Teut, the Wawona, Bijou and Star picture show houses. The criticism to be made will relate principally to the fire fighting equipment, the condition of aisles and exits. Chief Whittemore says that also compliance with the building and fire ordinances.

**ORIENTALS WILL TEST  
NEW CITY ORDINANCE**

Forty Prisoners Appear in  
Court; Are Released on  
\$2000 Bail.

That the thirty-five Chinamen and five Japanese, who were arrested Thursday night in the Oriental quarters because they were judged behind barred doors which were not open to police inspection, intend to fight the case in the court was made evident yesterday afternoon when the prisoners appeared before City Justice Graham and pleaded not guilty. They were represented in court by Attorneys Critchlow and M. K. Harris. It is supposed that no test case will be made of the ordinance under which the Orientals were arrested.

This is the first arrest that Chief of Police Jones has made under this ordinance since it was passed by the city trustees and it is presumed that Attorneys Critchlow and Harris will make an attempt to knock out the ordinance. City Justice Graham did not set any date for the trial. It is thought that the case will be tried before Police Judge Briggs as Justice Graham is only holding police court during the absence of the police magistrate.

The Chinamen yesterday afternoon were marched two abreast from the county jail down Mariposa street to Justice Graham's court room. They were all released on \$200 bail each which amounted to \$2,000. Lee Toy, a rich Chinaman, went on bail for all the prisoners.

**DEL REY LIQUOR  
CASE POSTPONED**

Through the failure of Assistant District Attorney McCormick to be prepared to prosecute the case, the hearing of Ben Oki, charged with illegally selling liquor, was postponed by City Justice Graham yesterday until October 27. Constable Drenth had summoned a jury and four witnesses from Del Rey were present to testify at the hearing when the assistant district attorney announced that he was unaware that the case was set for that time, therefore his evidence was not in shape to be produced in court.

**ANNOUNCE PROGRAM  
FOR SUFFRAGE MEET**

Mrs. F. A. McMahon Will  
Preside at Celebration  
Tomorrow Afternoon.

At the mass meeting called to celebrate the victory of Woman Suffrage at the Unitarian church on Sunday afternoon at 3 o'clock, Mrs. F. A. McMahon, President of the local league will preside. A fine musical program has been arranged.

Prof. Bela Purt and Theodore J. Irwin will render selections on the piano and violin. Mrs. John Stark of Omaha, and Miss Sigma Christie, will render vocal solos, with Mrs. Rosalind Hayes as accompanist.

The Rev. Thomas Clayton will deliver an address upon "The Women of California with the Ballot."

The general public are cordially invited.

**ITALIANS OBSERVE  
DISCOVERY DAY**

Thursday night the Italian Colony of Fresno had a large meeting on Commemoration of Columbus Day. There were four speakers, who spoke in English, Italian, Spanish, and Greek. The subject was the discovery of America. The remarks of the speakers were well received. Columbus by his great discovery made it possible for a grand free country for all nationalities of this world. The meeting was largely attended by men and women and after the meeting every one enjoyed a fine fresh lunch and perfect harmony prevailed.

**MIGHELS, WRITER,  
DIES BY OWN HAND**

WINNEMUCCA, Nev., Oct. 13.—Philip Verrill Mighels, the well-known author and playwright, died here last night as the result of an accidental gunshot wound, self inflicted. The accident occurred late Friday while Mighels was hunting quail. He was brought to the hospital here and for some time it was thought he would recover. A turn for the worse set in, however.

Mighels, who was 42 years old, was born in Carson City, Nev., where he studied law and was admitted to the bar. He went to San Francisco in 1892, where he was engaged for a while in journalism, later going to New York to reside. He was then author of numerous short stories and a number of poems and plays.

**ENDS STRIKE.**  
CANANEA, Mex., Oct. 13.—Dr. L. D. Ricketts, general manager of the Cananea Consolidated Copper Company, came up from Hermosillo in his private car immediately after learning yesterday that there was a strike in two of the mines and today the workmen who quit at the Eureka mine returned to work.

Dr. Ricketts took charge of the negotiations between the company and the strikers and as the result it was expected that the men on the Overight mine would return to work to-night.

**CONFER ON PEACE  
IN CHIAPAS STATE**

MEXICO CITY, Oct. 13.—There are some indications of a restoration of peace in the state of Chiapas, due largely to the efforts of General Pino, commander of the federal troops at Tuxtla Gutierrez. A peace conference began today near Chiapas. State troops yesterday re-captured Concordia.

General Ambrosio Figueroa, now governor of Morales, will leave tonight to resume action against Zapatistas, who are overrunning the region again.

**CONNAUGHT ARRIVE.**  
QUEBEC, Oct. 13.—The Duke and Duchess of Connaught landed here this morning. His royal highness was greeted with enthusiastic cheers and a salute of twenty-one guns. He was driven to the parliament building where he was formally sworn in as governor general of Canada.

**OPEN TONIGHT UNTIL 10 P. M.  
OUR 10 DAY CHALLENGE SALE

75c Fancy Knit Silk Ties	<b>35c</b>						

**SUFFRAGISTS IN EAST  
ARE ALSO JUBILANT**

Mrs. Shaw and Mrs. Pankhurst Say Women Are Now National Factor.

Those interested in medical freedom should attend a meeting which will be held this evening at the Taylor Lecture Club at 8 o'clock.

Mr. Floyd C. Shanks of San Francisco, representing the northern branch of The National League for medical freedom will address the meeting and explain the aim and purpose of the League.

"We are gloriously happy," declared Mrs. Anne Shaw, national president of the suffrage party. "This is the beginning of the end. The victory in California gives to the cause as many votes as in the five other states where we have previously won. Kansas, Oregon, Washington and other Western states are bound to follow the lead at the next elections. The politicians are also sure to realize that the women are winning their long fight and will climb into the band wagon."

The women suffrage party is soon to be a great power in the presidential campaign, as fact has become so now that California has won. President Taft this week made his first speech about woman suffrage and spoke in favor of it.

Mrs. Pankhurst, the English suffrage leader, said: "The news is worthy of great rejoicing. English women will be particularly glad, because it will be a great help in our campaign."

**KILLED BY FALL.**  
REDWOOD, Oct. 13.—John Laufer, a resident of Tehama county, fell from the roof of his barn last night and was instantly killed. His skull was fractured. Laufer was 60 years old.

**Electricity Will Pump For You**

If you have an electric pumping plant you will save yourself expense, vexation, trouble and loss. You will have the cheapest power and the most convenient. You will have water when you want it.

You will have power for other uses, such as lighting and many domestic uses. You will save yourself time and work because it requires no time to start the pump and there is no fuel to be hauled. There is practically nothing that can't get out of order.

San Joaquin Light & Power Co.

# California Oil Field News

K. T. & O. WELL NO. 23:  
AFIRE; THREE BURNED

Gusher Ignited By Expl-  
sion of Gas; Oil in Sump  
Is Also Consumed.

BAKERSFIELD, Oct. 13.—This morning while J. Birne, W. M. Elder and John Lynde were putting a gate on the Kern Trading & Oil Company's flowing well No. 23 near Maricopa, an explosion of gas occurred that severely burned the men around the faces and arms and set fire to the rig and sump. The men were just retightening the nut on the last bolt when the explosion took place, and what the cause may have been remains a mystery.

After the gate was in place the oil continued to flow through the casings at the rate of 1,000 barrels per day and this oil continued to burn all day. It was estimated that as was the oil in the sump when the wells and tanks nearby were opened, the oil in the sump was confined to the immediate vicinity of well 23, however, and though it is not known if the K. T. & O. people were putting the fire under control by breaking up dirt around the burning well.

The three men were painfully hurt by the flames and were taken to a hospital. It is not expected, however, that they will suffer any permanent injuries.

**COALINGA ROYAL HAS GAS SHOWING**

COALINGA, Oct. 13.—The Coaltinga Royal Oil Company's No. 14 well is down 1,370 feet in the second sand and working in a sand and shale formation with a strong gas showing with every screw. The well has been drilled through two light oil sands and is expected to be in the third and objective sand in a short time. Bert Williams is superintending the drilling of the well.

## SEPTEMBER REPORT FROM COALINGA

COALINGA, Oct. 13.—The following is a summary of the September production in the Coalinga field, as compiled by R. W. Dallas of the Agency.

## GOVERNMENT TO START USING CALIFORNIA ACTION IN NOVEMBER FUEL OIL IN ALASKA

Suit to Be Brought Against Alaska Coal Cannot Be S. P. for San Joaquin Valley Lands.

BAKERSFIELD, Oct. 13.—The government will sue against the Southern Pacific Company over title to valuable oil lands in the San Joaquin valley well before the end of November. The land involved is estimated to be worth \$2,500,000 and \$3,000,000 and both sides have their attorneys abiding for the day. The case will be hotly contested from start to finish and the result will probably not be reached for many months.

### DID HE GET ANY SQUIRRELS?

After being missing for 10 years and given up as dead, Martin McKittrick has returned to his parents' home in West Monroe. He was leading wealthy as a man in California. He gave no reason for his sudden disappearance. He left home 10 years ago to go squirrel hunting—Bellfontaine (Ohio) Dispatch to the Kansas City Times.

The man has great need for the high-grade Alaskan coal on the Pacific seaboard, but plans are now being perfected to convert battlements into oil burners. As a matter of fact an oil-burning passenger steamship, the Admiral Sampson, carried the Secretary of the Interior from Seattle to Alaska. If he had not decided to touch at certain ports of call on the route of the steamer Alameda (another oil burner), it would have brought him back to Seattle instead of the revenue cutter owing to the government's delay in opening up the coal fields, it is authentically stated that the White Pass and Yukon Railroad Company has determined to install oil burners on five steamers plying on the Yukon River and other locomotives running between Skagway and White Horse. The plan embraces a proposition to furnish oil to the industrial enterprises of the entire Yukon valley.

### CARBO HAS OIL AT 675 FOOT DEPTH

BAKERSFIELD, Oct. 13.—Oil has been reached by the Carbo Petroleum Company in well No. 9 in section 26, 32-33 at a depth of 675 feet. The well has not as yet been tested. The drillers have gone through thirty feet of sand and are still drilling in a suitable place for a landing. The oil runs from 15 to 17 gravity.

Oil has arrived for the Western Water Company's work in the west side fields and has been sent out from Taft. The laying of the pipe from Taft to the pumping station at Bakersfield will be started very shortly and it is said that it will be a matter of only a short time until the new system will be in operation.

### PYRAMID STOCK IS ASSESSED 6 CENTS

The Pyramid Oil Company has tested an assessment of 6 cents on its stock. This assessment will become effective on November 27. As a result of the laying of the assessment stock has taken a sharp drop on the Los Angeles and San Francisco exchanges. Men who had not come into contact with the exchanges were unable to learn the reason of the drop.

## GOVERNMENT MAY WITHDRAW MORE LAND

### INSPECTION OF WEST SIDE JUST COMPLETED BY PARTY OF OFFICIALS.

BAKERSFIELD, Oct. 13.—The result of inspection just made by a party of government land office and survey officials on the San Joaquin West Side oil territory from San Joaquin to Modesto, additions to the areas at present withdrawn from oil companies may be expected within the near future. Recent proving up of oil territory in the new districts south of Modesto, in the Lost Hills and other West Side tracts is said to have convinced the government officials in charge of the classification of mineral lands that additional withdrawals should be made.

The party was composed of M. W. Ball, chairman of the oil and gas division board of the Geological Survey, J. C. Northrop, assistant director of the Geological Survey, G. D. Taggart, chief of the San Joaquin land office, G. W. Hume, chief of the Los Angeles land office; G. F. Peck, assistant classifier in charge of the geological survey work being conducted in the Kern River field; E. S. Martin, mineral inspector from the San Francisco office, and Sibley Gilmore, mineral inspector from the Los Angeles office. The party went into the West Side fields last Thursday and returned last night. They traveled as far north as Coalinga.

The inspection, so far as can be ascertained, had nothing to do with the government suits against the railroad for the legalizing of mineral land. In order to determine whether or not the withdrawals now in effect are sufficient and if more areas should be withdrawn from entry, it is said to have been the object of the visit. Max W. Hall, who came from Washington, D. C., where he supervises the work of classifying the government oil lands related to personally inspect the area. He is now in San Francisco and his report to the department officials upon his return to the capital will determine the fact. It is expected that Mr. Hall will recommend additional withdrawals. It is not expected that any of the land now included in the withdrawn district will be opened for entry.

### BRIEF OIL NOTES FROM BAKERSFIELD

BAKERSFIELD, Oct. 13.—The state Consolidated Oil company has purchased 40 acres in section 15 near McKittrick from the McKittrick Oil Company and will start several rigs on the property in a few days.

The Dominion Oil Company, owning an adjoining 90 acres has met with success and has two wells making up Ward of 10,000 barrels a month. The wells are shallow being about six feet deep and the static expects to tap the same sand.

At the Midway Pacific lease they are down 1,600 feet with well No. 1.

C. H. Hock has well No. 1 down 1,240 feet and it is cemented up to 1,620 feet.

The Oilig brand in the North Midway oil claim in the North Midway section 22 has landed the 8-1-1 inch casing on top of the oil sand at 1,220 feet.

The Brighouse has spudded in a well on section 28, 27-21 and another on section 27, 27-20.

The King George near McKittrick has a fine supply of water at 125 feet. As soon as the storage tanks completed No. 1 will be spudded in.

### SOUTHWESTERN CO. STARTS DRILLING

COALINGA, Oct. 13.—The Southwestern Oil Company, successors to the Six Acres Oil Company, No. 21-15 after considerable trouble has started running today. The 8-inch string which was found to be stuck when the new company took charge of the property was loosened with a pair-down shear and pulled, after which it was discovered that the 10-inch casting had collapsed. A service was run successfully and the 8-inch replaced to a depth of 215 feet where drilling was started last night. The company will drill the well deeply into the lower oil sand, and since the Canadian Geological Survey at about 2,840 feet the outlook for a well on this property is greatly increased. A. L. Krebs of Fresno is superintending the work.

### ACTIVE DRILLING ON MOJAVE DESERT

BAKERSFIELD, Oct. 13.—Activity in the drilling of wells on desert properties on the Mojave desert indicated that during the winter months a number of new settlers will move in.

Wilson & Wilson, drilling contractors, have just started work on a water well in section 31-27, for Miss Fortington Joseph. The well is situated on the northeast quarter.

The well being drilled on section 31-27 is 108 feet deep. The well being put down by White & White for G. S. Hammond on section 59, 31-27, is 92 feet deep with good indications of water.

BOUGH! WOW

While the press corps was marching around town and a stampede began to form, the red cross was raised and a half hour following, a man and a woman were found armed with the report that the patrol arms were scattered from the tents, whistled the girls. This caused a great stir in the city. From the New York Telegram.

## RECEIVERSHIP TO GUARD BIG LOAN

Nervous About Relation of \$20,000,000 Firm to Realty Man.

SHATTUCK, Wash., Oct. 13.—The trustees who were appointed yesterday for the Western Steel Corporation, which is a strong man, will serve until the creditors choose a trustee. One of the trustees chose a trustee for the Metropolitan Trust Company of New York, upon whom the receivers were appointed.

The Metropolitan Trust Company has agreed to the Western Steel Corporation's request to continue in the present year, and was willing to make further advances if President Jones, A. Moore, would remain in control of the company. For some time, the trust company has been trying to make arrangements with Mr. Moore to that end, and at last has been compelled to take the present steps for its own protection and the protection of the property.

We don't understand just what relation there is between the Franklin Realty Company and the Western Steel Corporation, and this is one of the things the present management will attempt to clear up. It is understood that the Franklin company has disposed of something from Kingdom worth of property in the vicinity of the plant, but the exact amount is unknown.

Likewise we have no idea of the possible value of the property, nor of the true valuation of the plant. It is not valued at all the way from \$600,000 to \$1,000,000. We want to put just how much has been put into it. Whether it is a sum too much to ask the Western Steel Corporation has disposed of it.

Concern for Jones, A. Moore, states that the corporation assets are valued at \$2,000,000 and consist principally of iron, coal and timber leads in Nevada, California, Washington and British Columbia, the latter through the Franklin Realty Company, which has sold thousands of lots to the town of Franklin, has no connection with the steel corporation. Moore is in New York.

Former Secretary of the Treasury Leslie M. Shaw and Robert Dolby of San Francisco are among the directors of the steel corporation.

### RAT COLLEGE GRADUATE

Parhamized during the last rating test in Del Norte County, but yet could not pass for the first rate in the county, to the Purple of tenth and Main street, says:

"I saw this particular rat come out of its hole, drag a large bunch of grapes from the table, and when I found that the bunch was too large to go through the hole, it just sat up in its hind legs, pulled off a grape at me and rolled them down the hole after which he threw aside the stem and leaped up to a second hole soon to catch a morsel that I buried in it.

"I don't mind ordinary rats, but when they are college graduates and specialists in their line, I think it is time to call a turn." —Daily (Pa.) Dispatch to the Philadelphia Record.

## Old Colds

# -Commercial-

**GREEN STRING BEANS  
ADVANCE 2 1-2 CENTS**

**Season About Over, Causing Price to Jump;  
Squash Plentiful.**

**Green string beans took a jump yesterday on the local market, the latest quotation being 7 1-2 cents per pound, an increase of 2 1-2 cents over the day before. Green beans are becoming scarce as the season is about over and it is predicted that the price will jump still higher. Hubbard squash is now on the market and the demand is brisk. This product has replaced the summer squash on the fruit stands and vegetable counters.**

Pumpkins, 10c. 25c. lb.  
Peaches, 25c basket, \$1.65 box.  
Potatoes, 10 lbs., 25c.; 25 lbs., 50c.; 45 lbs., \$1.40; 68 lbs., \$1.60, \$2.00...  
Potatoes, Sweet, 25c. lb.  
Black Radishes, 10c. 3 for 25c.  
Sprouts, 10c. lb.  
Squash, Summer, 3c. lb.  
Tomatoes, 4c. lb.; 10c. basket; 5c. box.  
Turnips, 2c. for 5c.  
Quinces, 4c. lb.; \$1.25 box.

**BUTTER, EGGS AND HONEY.**  
Creamy butter—7c roll.  
Colony—6c roll.  
Eggs—35c doz. 2 for 45c.  
Honey—15c lb.  
**MILK STUFFS.**  
Wheat—\$1.75 per cent.  
Barley—\$1.40 each, \$5. tom.  
Milk—\$1.50 per cent.  
Butter—2c. 10c. each.  
Calfmeal, meal, \$1.50 in 100 lbs.  
Bran—\$1.50 a sack; \$2.50 a ton.  
Milk—\$1.75 a sack; \$3.50 tom.  
Sugar—74c per cwt.

**FRESH MEATS.**  
Beefsteak—12c. to 25c per lb. each.  
10c. to 20c.  
Mutton—12c. to 20c. lb.  
Lamb—13c. to 25c. lb.  
Veal—12c. to 20c.  
Round steaks—18c. to 20c. lb.  
Chuck steaks—12c. to 20c. lb.  
Sirloin steaks—22c. lb.  
Porterhouse steaks—25c. lb.  
Lard in quantity—14c. to 18c. lb.  
Chickens—Broilers, dressed, 2c. lb.; alive, 2c.  
Lamb, 1c. lb.; hams, dressed, 2c. lb.; alive, 2c.  
Chickens—Fryers, dressed, 2c. lb.  
Turkey—Dressed, 10c. lb.; alive 20c. lb.  
**DRESSED STOCK (Wholesale)**  
Steer—\$4. to \$6. lb.  
Veal—\$4. to \$6. lb.  
Cows—\$4. lb.  
Hogs—\$4. to 10c. lb.  
Sheep—\$4. to 9 cents. lb.  
Lamb—\$1. to 12c. lb.

## SAN FRANCISCO MARKET REPORT

**SAN FRANCISCO Oct. 13.—Fruits**  
Fancy apples 100c common 75c.  
Berries—Strawberries 32c/lb.; buckberries 80c/lb.; raspberries 160c/lb.; gooseberries 50c.

# Athletics to Meet Giants at New York Today

## BASEBALL STAGE IS SET FOR BIG SERIES TO DECIDE WORLD'S TITLE

Curtain Will Go Up on Opening Battle at Polo Grounds This Afternoon; 60,000 Eager to See Fray; Many Sleep and Eat at Gates.

NEW YORK, Oct. 13.—With the stage set and the curtain about to be raised on the final act of the season of baseball, the night-before-news of the series for the world's baseball championship between the Philadelphia Americans and the New York Nationals may be epitomized as follows:

The forty-four eligible players are reported to be in the competition with one exception—first baseman Charles of Philadelphia, whose injured wrist may keep him out of the game.

Pitchers were not chosen tonight, nor if they were, neither manager would divulge his choice.

Pelots to the series, though still to be had are mainly in the hands of speculators who are charging exorbitant prices.

All is ready at the Polo Grounds for a crowd of nearly 60,000 persons.

**FANS SLEEP AT GATES.**

Some fans formed in line late this afternoon, intending to eat and sleep at the gate until admitted tomorrow. The police look for trouble as they have been ordered to arrest ticket scalpers, nothing unclaimed at their homes.

Many Philadelphia supporters gave odds of 10 to 9.

**The probable line up is:**

New York—Dove, H.; Doyle, 2b; Snodgrass, H.; Murray, rf; Merkle, 1b; Herzog, 3b; Fletcher, ss; Meyers, c; Marquard or Mathewson, p.

Philadelphia—Lord, H.; Oldring, c; Collins, 2b; Baker, 3b; Murphy, rf; McInerney or Davis, 1b; Barry, ss; Thomas, c; Bender or Coombs, p.

Opposite—Choice of two from Klem and Bremer of the Nationals and Connolly and Dineen of the Americans.

The twenty-five Philadelphia players selected, as slightly arrived in New York tonight.

**DAVIS TO PLAY 1ST.**

All men appear to be in excellent condition.

The few Philadelphia fans who followed the men over said they expected to see Davis take the initial sack. It was said that Harry Davis, the veteran first baseman would take his old position if Mettines was unable to play.

"Who will pitch?" remained unanswered by Manager Mack who insisted that no night before announcement would be made.

"It may be any of us," said "Chief" Bender.

In the New York camp there was the same reticence as to which pitcher would be seen. It depends upon several things, especially the weather.

Many of the fans guess that if it is a cloudy day, young Marquard, the hero of the season's play, will be put in the box as his speed would show to more advantage in the haze.

"All the men are in fine fettle," said

**SCALERS GET TICKETS.**

NEW YORK, Oct. 13.—The speculators' corner on the world's most expensive baseball tickets was, evident here today. Signs offering seats or sale at various stores were displayed. Young men with pockets and hands full of the tickets patrolled Broadway.

Those who had sent small orders for tickets accompanied by checks learned today that the management had honored only those small orders which asked tickets for the whole series.

The crowd that besieged the offices of the secretary of the New York club became so demonstrative that the guard of two special policemen was doubled.

Vice President Sherman was one of those disappointed. His mail order for a box was not filled and his money was returned.

**DUCK SEASON WILL OPEN TOMORROW MORNING.**

**NO WORD FROM HOBSON.**  
WARREN CAR MAKES GOOD SCORE

Up to late hour last night no word had been received here from Columbus Hobson, the auto dealer who is driving a Warren-Detroit touring car from San Francisco to return. Hobson reached Pasadena Post Office on time for the first night's control and made Santa Barbara with a perfect score for the second night's control. The cars were seen at Los Angeles at 2:30 o'clock yesterday afternoon, but Hobson sent no word here.

The drivers and mechanics will view the Santa Monica road races today and leave Los Angeles on the return trip at 7 o'clock tomorrow morning. The first night's control will be at Bakersfield and the second at Fresno. Lunch being taken Monday noon at Tulare. Tuesday night the cars will be in San Francisco, the finish. Lunch will be taken at Stockton.

Hobson is driving the only Fresno car entered. On the first and second days he held his own against twenty-four other cars from San Francisco and Los Angeles. If Hobson reaches Bakersfield in a perfect score, he can declare victory as he has met all the requirements of the race.

According to reports from the West Side, the birds are plentiful, no doubt due to the fact that much high water last spring gave an opportunity for early hatching. Food has also been plentiful and for this reason the club members are looking forward to a prosperous season.

**CY YOUNG PICKS GIANTS.**

"I pick New York to beat the Athletics on speed, and speed alone," says Cy Young, veteran pitcher of the Boston Nationalists, who has pitched against both teams. "In my opinion the two leagues are evenly matched. In a short seven game series, therefore, the team which can press the greatest amount of speed into a limited time

should be certain winners."

"I don't think the Athletics' pitchers can keep the Giants off the bases, and once they get on neither Thomas nor Carr can stop them. On the defense Mathewson will be able to work three games and will take care of all three, leaving one to be won out of four by his colleagues."

"Even allowing the pitching, fielding and hitting to stand equally, the advantage is with the Giants with their base running, and so I think them to win."

**RED LEGS BEAT CUBS.**

CLEVELAND, Oct. 13.—Clyburn won the second game of the state championship series with Cleveland here today. Score: R. H. L. Cincinnati ..... 19 11 0 Cleveland ..... 22 8 1 Batters—Benton and Clark; Kivler, W. Mitchell, Falenberg and O'Neill.

Umpires—Evans and Rydell.

**SOX NOSE OUT CUBS.**

KANSAS CITY, Oct. 13.—Duffy in three runs to a brilliant ninth inning rally this afternoon, Duffy's White Sox won the first game of the state championship series from Chicago Cubs by a score of 13 to 9. Brown, the American League's leading hurler, got a total of twelve hits, while Walsh held the Cubs to five.

**SOFT PUT BY FRANK GOTCH.**

KANSAS CITY, Oct. 13.—Frank Gatch, the soft-putter, who is now in the city, costing him his insurance business in training, and Carl Morris, manager and now pennanted hope of Oklahoma, visited W. W. Smith in the Detroit News.

Gatch watched the work of the English champion carefully in New York the other night when he took on the Athlet in a ten-round encounter and believes that McFarland's skill and speed will play the rounds of the champion the other side of the Atlantic.

**WHAT MARQUARD WILL GET IF HE WINS.**

Matt Wells, Brittan's star light weight, as far back being a world champion in the opinion of Jim Flynn, "the blue killer," who is now in the city, costing him his insurance business in training, and Carl Morris, manager and now pennanted hope of Oklahoma, visited W. W. Smith in the Detroit News.

Gatch watched the work of the English champion carefully in New York the other night when he took on the Athlet in a ten-round encounter and believes that McFarland's skill and speed will play the rounds of the champion the other side of the Atlantic.

**SOFT PUT BY FRANK GOTCH.**

KANSAS CITY, Oct. 13.—Duffy in three runs to a brilliant ninth inning rally this afternoon, Duffy's White Sox won the first game of the state championship series from Chicago Cubs by a score of 13 to 9. Brown, the American League's leading hurler, got a total of twelve hits, while Walsh held the Cubs to five.

**50.00 REWARD.**

For anyone who has information concerning the whereabouts of the fugitive, Frank Gatch, the soft-putter, who is now in the city, costing him his insurance business in training, and Carl Morris, manager and now pennanted hope of Oklahoma, visited W. W. Smith in the Detroit News.

**OLD SOUTHERN COOKING.**

A great opening Saturday and Sunday in J. C. Penney's new department store will be provided by a New York theatrical troupe.

For anyone who has information concerning the whereabouts of the fugitive, Frank Gatch, the soft-putter, who is now in the city, costing him his insurance business in training, and Carl Morris, manager and now pennanted hope of Oklahoma, visited W. W. Smith in the Detroit News.

## New Device to Develop Harvard Line

BOSTON, Oct. 13.—The charging machine, as it has been termed, is a mechanical device by means of which men are taught the rudiments of line buckling. With this device it is also possible to accustomize muscles to the buckling power of each individual candidate for one team. The machine also develops the shoulders. The practice of 1911 life men are here shown under the direction of the head coach practicing on a charging machine. It is a Harvard invention and great possibilities are predicted for the device as a developer of strong teams.

**ROAD RACE STARTS THIS MORNING AT SANTA MONICA.**

**PORTERVILLE TURNS OUT NEARLY THREE RUGBY TEAMS.**

**JOE THOMAS WANTS TO GATHER HIS EX-TITLE.**

**Fog Settles Over Course; Head Coach Pomeroy Finds Large Supply of Material for Squad.**

**California Boy Is Anxious to Regain Championship He Lost to Ketchell.**

**COMINGA, Oct. 13.** Eddie Burns sends his assurance to those in Boston who are interested in the game of golf that the right time between Vic Hanson and Joe Thomas on October 21 will be the best time and the expense in getting to California on that date.

In fairness to Hanson, let it be said that Vic was not in good condition when he met Frank Ketchell, as he had so much weight to take off of that he overworked himself. This time, however, Vic will have no trouble with weight-making and should show a big improvement when he faces Thomas.

When Joe comes down from Oakland to prepare for his hour, here with Vic Hanson, which was scheduled for October 14th, he begins his work of reducing, strenuously causing his illness which prevented further training, and he asked Marquard, Eddie Burns, to have the right position one week and allow him to go back to the Bay City to complete his training, which was granted and the date of October 21st was set for the attention.

Collins, if mounting over an epidemic of boils, which thus delayed the back-to-back days on the previous team and at last night's photo, four men were held off by physical fit of this painful affliction, Wible, Linden, Jones, and Lewis being out of the game, for the coming Linden is particularly crippled up and is nowander physician's care.

This year the Porterville squad is heavier than last and is much heavier and speedier than anything in any of the teams in the weight. In the track field there are some new stars, and the coach is looking for Pomeroy to put in two complete middle-field equipments if it should be necessary. In fact, buckling out the backs has been anything but an easy task for the head coach this year and was not for the added practice who some of the last year had had that they would be hard put to hold it in place.

Reversing the backs are doing it to be placed to cover with Bakersfield in a frenzied attempt to wrest from them the big silver cup which will be their property should they win it again this season. The boys are confident of winning, however, and on present form they should win by a good sized score.

There are several cups to be contested for.

**12 CARS TO START.**

Only four cars will start in the heavy car race but as this event will be run at the same time as the class for cars of 231 to 300 cubic inches piston displacement there will be thirteen cars on the course. This event will be run first. Following this will be the light car race for a distance of 101.04 miles. The heavy and medium cars go 161.00 miles and the free for all 202.55 miles. It is estimated that all 20,000 people will see the race.

Automobile parties began packing about the course as early as 9 o'clock tonight until the local resorts which stretch along the Pacific for six miles were crowded and the revelry will continue throughout the night and early morning. Fred Wagner has arrived from New York to start the race and today the pits were allotted and Wagner gave the drivers and their mechanics their final instructions.

Fred Wagner has arrived from New York to start the race and today the pits were allotted and Wagner gave the drivers and their mechanics their final instructions.

**REAL DROP KICKER ON MICHIGAN SQUAD.**

Fielding H. Vost has made a discovery. Perhaps it was all a case of luck; perhaps it was what some people call "preordained." As far as the Michigan coach has another new find. For the first time in years, he says, he has found a utility man and near the end of his term with Boston he was put on third as a regular. Strange also was one of the best of the utility men. He was never good as a regular, but excellent as an occasional player.

Wagner, like Lowe, can play any position with equal success. He has filled nearly all positions with his ability, but another case of being a good footballer.

Another is a Flint, owned by Fred Hudson, a Philadelphia millionaire, now in this city, who has engaged Harry Goffield's brother to drive it.

**PLAN WINTER LEAGUE.**

BAKERSFIELD, Oct. 13.—Bakersfield is to have a rattling soft Winter League before many moons roll.

The first night's control will be at Bakersfield and the second at Fresno. Lunch being taken Monday noon at Tulare. Tuesday night the cars will be in San Francisco, the finish. Lunch will be taken at Stockton.

**DOH AND FIAT ENTER.**

LOS ANGELES, Oct. 13.—The mystery regarding three automobiles which are coming across the continent by express to enter the Santa Monica road race tomorrow was partly cleared up today.

It was learned here that one of the cars is an Ohio, a factory entry, which will be driven by Dixie.

Another is a Flint, owned by Fred Hudson, a Philadelphia millionaire, now in this city, who has engaged Harry Goffield's brother to drive it.

**WHAT MARQUARD WILL GET IF HE WINS.**

Finally, while he was scurrying to mid-field watching both ends, it hit him squarely in front of his face. "What's that?" asked the coach. "It's a kick," said the boy. "It's a drop kick," said the coach.

He was a little surprised, but he was not too much so, as he had been told that drop kicks were used in football.

He was a little surprised, but he was not too much so, as he had been told that drop kicks were used in football.

# GREEK LEADER DECLARES "WAR" ON JAPANESE GRAPE PICKERS

P. Sioris Will Open Free Employment Office in Local Chinatown.

All But Japs Welcome to Branch of State Federation of Labor.

P. Sioris, state organizer for the Migratory League, has declared "war" on the Japanese grape-pickers. With this idea in mind Sioris will invade the Oriental quarter in this city today morning with a free employment office where any person but a Japanese may secure work without paying any fee. The Greek leader stated yesterday that he had made all arrangements for opening his free employment bureau at Fresno street, near 43, where a man will be in charge seven days in the week.

The office will be known as a branch of the Migratory League of California. This organization is affiliated with the State Federation of Labor. Sioris being an organizer for both, T. C. Seaward, recently elected vice-president of the State Federation from the second district for a second term, is also an organizer.

Seaward has co-operated with Sioris in organizing the Greeks, Mexican and Italian laborers of the valley, and the purpose of the free employment office is to continue the work of organization on a larger scale. When the office is opened, any laborer at a Japanese will be welcomed with open arms, and an effort made to secure employment for all migrants. However, the chief aim of the organizers is to start a campaign against the grape pickers from the land of the rising sun. Sioris declares that the little brown men are a menace to California and their places in the vineyards and orchards should be filled with white labor.

Yesterday, Sioris secured employment for thirty of the 200 idle Greeks who came here with the expectation of being used to help harvest the grape crop. Upon their arrival they found Japs performing the work. The Greek-organizer says that he is not discouraged because the "farmers have shown a preference for Japanese, but hopes to get an early start next year and have the sons of Nippon displaced by Greeks. Sioris believes his fellow countrymen will prove satisfactory to the growers will only give them a thorough trial.

## ESPEE GUARDS WAILED FOR BEATING JAPANESE

Had Ticket to S. F. and Walking in Yards When Attacked.

H. R. Pickens, a member of the state railroad police, and H. P. Moon, a guard both in the employ of the Southern Pacific, were arrested at 1 o'clock this morning by Patrolmen Broad and Fornes and placed in the county jail. They were charged with disturbing the peace. The men were alleged to have beaten H. Mitsubishi, a Japanese.

The attack of the railroad-men upon the Japanese took place in the Southern Pacific yards and was witnessed by several switchmen, it is alleged. The Japanese had purchased a ticket for San Francisco and was allowed to pass onto the depot platform by the guard in charge of the gate. Mitsubishi, who was not aware that it was against the law to walk through the railroad yards, started toward Chinatown. He was carrying his suitcase. He was stopped by the two guards and because he refused to go back to the depot and enter Chinatown by way of Tulare street, he was beaten. It is said, by the two men. Mitsubishi was taken to Chinatown and after the officers were informed of the affair, they returned to the railroad yards and arrested the guards.

The Japanese is unable to understand English and did not comprehend what the guards wanted him to do. He will sign a complaint against them this morning, it is stated.

## STRUCK BY SPOUSE; WON'T PROSECUTE

Rendered unconscious by a blow delivered by her husband, a woman who resided at 1527 B street, yesterday morning refused to sign any complaint against her spouse, so heritors were made by Patrolmen Davis and Rutherford, although they had been called to the scene of the trouble. The officers learned that the woman and her husband had been quarreling and that the husband had knocked his wife down and re-started her unconscious. A call was sent into police headquarters and the woman was just returning for sponges when the officers arrived. She refused to make any complaint against her husband and as the police had no evidence the encounter no arrests were made.

## RAIN DANGER PAST; FORECAST SAYS FAIR WEATHER FOR TODAY

Fair weather is the prediction of the weather bureau. Reports were received at the office last night to the effect that the storm in the extreme northern part of the state, which was thought to be coming south, is moving rapidly east and will not touch the central portion of the state at all. It was reported in the day that the storm was coming south and acting upon this advice warnings were sent out. W. E. Bennett, local forecaster, said last night that there will be no danger of rain today.

## OWL TRAIN IS LATE FOR FIRST TIME SINCE STRIKE BEGAN

Did Union Sympathizers Remove Coupling Pin in Kerman Yards?

Fifty-one Cars of Dried Fruit Leave Here; Depot Is "Stamped."

Passenger train No. 36, better known as the Owl, was a half hour late last night the first time this fast train has been behind time since the strike began according to Southern Pacific officials. The delay was caused by the "breaking" of the train at Kerman, and the railroad men allege that union sympathizers caused the tangle by removing a pin from the coupling apparatus between the coaches. The Owl is due here at 11:30 o'clock. It arrived shortly after the midnight hour.

All other passenger trains were on time last night and freight trains made good time yesterday and the amount of freight being handled in the local yards is so large that there are insufficient cars to accommodate the shippers. According to Freight Agent Emmons the Southern Pacific has lost little or no business because of the strike.

"As a matter of fact we are not worrying about the strike," said Emmons. "We are still doing business at the old stand and all that worries us is the fact that box cars are scarce. We sent a string of fifteen to Bakersfield to help them out as their business has increased since the strike began. However, we expect more cars in a few days."

**NEW ENGINE INSPECTED.** Assistant Superintendent Dadds and Master Mechanic Scheibeberger last night inspected No. 1534, the new passenger engine for the San Joaquin division. This engine has been turned out of the Bakersfield shops by strikebreakers and is considered to be one of the best.

The capital city removal amendment was made conditional upon an offer of a site and the payment of a money bonus, and this was the specific act or condition alluded to in the decision. In Alameda county it appears that the Justice courts have gone practically out of business pending investigation of their status, and all felony examinations have been ordered in obedience awaiting the determination of the question. In Oakland as in this city, the city police court will in no way be affected by the amendment having been created by special charter provision under constitutional and legislative authorization. The police judge has also jurisdiction as a justice of the peace, and so may handle all preliminary examinations until the vexed points as to the operation of the new law are passed upon.

M. G. Gallaher, city attorney of Selma, has looked up the question in view of litigation that is pending in the Justice court and has said yesterday he was not confident that these tribunals have been amended out of existence that he would not proceed with his cases and did not know "where he was at."

## 51 CARS OF FRUIT

Included in the making up of the freight trains leaving here yesterday were fifty-one cars of figs, raisins and other dried fruits. All of these cars had been loaded in the yards at the various packing houses. Last night all freight had been moved with the exception of six cars of merchandise. These will go out this morning.

## QUIET AT BAKERSFIELD

Last night, Assistant Superintendent Dadds was in communication with F. M. Worthington, general superintendent of the valley division with headquarters at Bakersfield. Worthington stated over the telephone that the Bakersfield yards are quiet with the strikebreakers doing satisfactory work.

Dadds stated that the Southern Pacific has all the men it needs at Bakersfield and Fresno. About forty are employed in both yards.

## L. W. W. GETS BUSY.

One of the early morning features of the strike yesterday was the discovery that during the night scores of L. W. W. stickers had been pasted about the depot. Leaders of the striking car and shipment deny any knowledge of the stickers, while the railroad officials are at a loss to explain. Several strikers stated, however, that they believed the L. W. W. stickers would be employed in the present trouble.

The stickers were following in red letters: "RAILROAD MEN, NO SCAB, SO DISPENSABLE AS A UNION SCAB, STAY UP THE ROAD. USE L. W. W. Tactics, Solidarity Wins." Before the middle of the afternoon all the stickers had been removed from the depot by railroad janitors.

## COMPELS YOUTH TO GET WINE; ARRESTED

Because he is alleged to have compelled a little boy to go into his room and get him a glass of wine, Jack Conway, 16, was arrested yesterday. John Davis and Rutherford and Rutherford in the county jail. Conway was charged with disturbing the peace, although an assault charge may be lodged against him this morning.

The boy was playing in front of his house at 402 S. street. At first the youth refused but when Conway is said to have drawn a gun the boy ran into the house and without informing his parents went to Conway. Conway was drinking the wine when the mother of the lad happened to go to the front door and when she saw what was taking place she called the police.

Sheriff McSwain happened to be passing by in his automobile and he told Conway to the bastille.

## SMALLPOX VICTIM NOT ILL IN SCHOOL

Parents of children attending the Columbia school expressed much anxiety yesterday because of the fact that Sam Pearson, a colored boy who had been attending the school was taken to the pest house on Thursday suffering from small pox. Principal Mitchell announced, however, that the boy had not attended school for two days because of his illness and that he was perfectly well at the time. He said there was no cause for fear.

## DIST. ATTY. FEARS J. P.'S STRIKERS DENY ESPEE HAVE BEEN PUT OUT OF BUSINESS

Will Bring Felony Cases Before Briggs Until Question Settled.

## He Thinks Constitutional Amendment Has Abolished Present Courts.

Pending judicial determination of the Justice Court Amendment, District Attorney Church will hold preliminary before Police Judge Briggs, whose court is not affected. It is the belief of Mr. Church, shared by other district attorneys, that the constitutional amendment has abolished present courts.

"The question has not come up to me in a tangible form yet in this county in a criminal case," said District Attorney Church last night, "but I can readily see where much confusion would arise, and I am not so sure but that these Justice courts having been created by the constitution and the constitution having been amended to disestablish them, the courts are no longer in existence." Here is the case of an amendment to the constitutional creative power. It is not like an amendment to a statute; it is like knocking the prop from under you."

Mr. Church looked up the constitution and satisfied himself that the vote on Tuesday was ratification of itself of amendment 18, and all the other amendments. He read section 4 of Article 18 of the constitution which reads:

"If the people shall approve and ratify such amendment, or amendments, or any such of them, by a majority of the qualified electors voting thereon such amendment, or amendments, shall become a part of the constitution." Attorney Church is of the opinion that the amendment demands no further action to make it a part of the constitution, and following the action taken by the district attorney in Alameda, he said he would also investigate the status of the Justice court and hold felony cases in evidence until the standing of the courts is determined. The only decision which he could find bearing on the question was that of Livermore vs. Waite, reported in 102 Cal. 113, arising out of the constitution amendment for the removal of the state capitol from Sacramento to San Jose, a decision rendered in 1894. In that case the state supreme court held as follows:

"The constitution does not permit the legislature to propose an amendment that will not upon its adoption by the people become an effective part of the constitution; nor one which if ratified will take effect only at the will of other persons or upon the approval of such other persons or on some specified act or condition."

The capital city removal amendment was made conditional upon an offer of a site and the payment of a money bonus, and this was the specific act or condition alluded to in the decision. In Alameda county it appears that the Justice courts have gone practically out of business pending investigation of their status, and all felony examinations have been ordered in obedience awaiting the determination of the question. In Oakland as in this city, the city police court will in no way be affected by the amendment having been created by special charter provision under constitutional and legislative authorization. The police judge has also jurisdiction as a justice of the peace, and so may handle all preliminary examinations until the vexed points as to the operation of the new law are passed upon.

The rule adopted by the board is a general one that hereafter in the case of prisoners placed in the county jail for violations of ordinances of incorporated cities who pay fines and are released the actual cost of the maintenance of the prisoners shall be deducted from the fines paid and the remainder paid to the cities.

The rule was established on the claim of Selma for the refunding of \$600 so paid in as fines and retained in the county treasury. The claim covered a period of nearly four years, though the number of prisoners covered by the claim was small. There were not more than four or five but they were mostly Chinese and had been fined heavily for gambling and paid their fines after having been in jail only a day or so and one only an hour or more. The offsetting claim of the county for the board and keep of the Selma prisoners is small amounting to \$3.25. City Attorney Gallaher stated to the board that the refunded money would be spent by Selma city in the construction of a caboose.

The supervisors in making the rule decided to charge as an offset only for the actual cost of the meals and clothing that may be furnished a prisoner.

The sheriff is allowed fifteen cents a meal, the general prisoner being given two meals a day and those that work outside three meals.

The board will however not heed the suggestion of Assistant District Attorney McMorris that such city sentences should not be placed out on work in the park or in the court house for the benefit of the county. The city misdemeanant prisoners will have to work as always and this was tacitly agreed to by City Attorney Gallaher, who made the statement that Selma pays as any other town the same state and county tax rate, so that extra help is hired to do the work of the prisoners it would have to bear its share of that expense.

So being the labor of its prisoners is really a saving which might be otherwise charged up against it for the maintenance of the prisoners. As it is no extra expense is charged up, however additional forces is employed.

The rule adopted yesterday will apply of course to all city prisoners from Fresno, Clovis, Sanger, Fowler and Kingsburg, and settle a controversy that first arose about three years ago under Sheriff Chittenden over Fresno city inmates, their fine money and the pay for their meals. The rule is to be that whenever laid hands first on the fine money, whether sheriff or city court, kept it for the county or city as the "lease" might be. As to the towns other than Selma the new rule becomes effective hereafter.

## COURT HOUSE DOME IS ORDERED CLOSED

Painters Begin the Work of Coating Building With White Water Color.

The court house dome was ordered closed yesterday and admissions to it denied to the public. The supervisor said during the session that the four and exterior of the building is being painted. Chairman Jorgenson or the board signed yesterday the contract for \$2,000 with Contractor C. O. Smith though the contractor has had men on the roof for several days on preliminary cleaning up work and removing paint surface. Contractor Smith gave two bonds one with E. J. Tarr and J. D. Page for faithful performance of the work and the other with G. P. Cummings and J. C. Clark as sureties to secure the material men against them. There are eight or ten painters at work and the effort will be made to have the contract completed before the wet season sets in. The first work will be on the done itself and this being of metal three coats of white water color will be applied.

## FUND FOR McNAMARA

A committee was appointed by the Labor Council last night to raise funds to assist the defense of the McNamara brothers, now on trial in Los Angeles for the alleged blowing up of the Times building and the killing of almost a score of employees. The committee will begin its work at once.

Another committee was appointed to start a campaign for the organization of a Union Label League in Fresno.

The council voted to send \$10 to aid the button workers who are on strike in Muscatine, Iowa.

## TO OPEN BIDS ON KINGS' BRIDGES

The supervisors will consider a contract to build four bridges on sloughs of the Kings river, east of the pioneer town of Centerville. Bids were opened yesterday but an award was deferred on account of the absence of Supervisor Mitchell, in whose district the bridges are located. The two bridges were A. H. Brown \$9249 and R. E. Hall \$3000. The new bridges will replace structures that have been in service many years.

## PORTEGUESE END SESSION.

PETALUMA, Oct. 13.—With the installation of grand officers for the ensuing year the annual convention of the United Portuguese Society of California came to an end today. Watsonville was named as the place of the 1912 convention.

## RODGERS SHIES AT HOODOO.

KANSAS CITY, Oct. 13.—C. P. Rodgers, the aviator, today postponed resumption of his flight to the Pacific Coast until tomorrow, because his mother did not want him to start his westward journey on Friday, the 13th.

## CHARGE; TO BE TRIED

Union Men Claim Railroad Officials Trying to Win Sympathy.

A jury of twelve men will probably be called upon next Friday morning to decide whether or not C. Conn and David Wright, Southern Pacific strikers, are guilty of the charge of cutting air-pipes. Conn and Wright were arraigned before City Justice Graham yesterday morning and they pleaded not guilty. They were released on \$100 bail, and the trial was set for Friday morning at 10 o'clock.

Both men will be tried at that hour, as they are jointly charged with the crime. Conn and Wright reside in the same house on Coast avenue. Both declare that they are innocent of the charge, and that it is simply the work of the Southern Pacific authorities to prejudge the public against the strikers. A. P. Ade, who swore to the complaint and who is in charge of the guards at the local yards, denies that the strikers are guilty. He claims that they are not guilty. The hearing Tuesday on a battery charge, which was lodged against him by C. Lindrose of the city fire department.

"The question has not come up to me in a tangible form yet in this county in a criminal case," said District Attorney Church last night, "but I can readily see where much confusion would arise, and I am not so sure but that these Justice courts having been created by the constitution and the constitution having been amended to disestablish them, the courts are no longer in existence."

"Here is the case of an amendment to the constitutional creative power. It is not like an amendment to a statute; it is like knocking the prop from under you."

Mr. Church looked up the constitution and satisfied himself that the vote on Tuesday was ratification of itself of amendment 18, and all the other amendments. He read section 4 of Article 18 of the constitution which reads:

"If the people shall approve and ratify such amendment, or amendments, or any such of them, by a majority of the qualified electors voting thereon such amendment, or amendments, shall become a part of the constitution."

Attorney Church is of the opinion that the amendment demands no further action to make it a part of the constitution, and following the action taken by the district attorney in Alameda, he said he would also investigate the status of the Justice court and hold felony cases in evidence until the standing of the courts is determined. The only decision which he could find bearing on the question was that of Livermore vs. Waite, reported in 102 Cal. 113, arising out of the constitution amendment for the removal of the state capitol from Sacramento to San Jose, a decision rendered in 1894. In that case the state supreme court held as follows:

"The constitution does not permit the legislature to propose an amendment that will not upon its adoption by the people become an effective part of the constitution; nor one which if ratified will take effect only at the will of other persons or upon the approval of such other persons or on some specified act or condition."

The rule adopted by the board is a general one that hereafter in the case of prisoners placed in the county jail for violations of ordinances of incorporated cities who pay fines and are released the actual cost of the prisoners shall be deducted from the fines paid and the remainder paid to the cities.

The rule was established on the claim of Selma for the refunding of \$600 so paid in as fines and retained in the county treasury. The claim covered a period of nearly four years, though the number of prisoners covered by the claim was small. There were not more than four or five but they were mostly Chinese and had been fined heavily for gambling and paid their fines after having been in jail only a day or so and one only an hour or more. The offsetting claim of the county for the board and keep of the Selma prisoners is small amounting to \$3.25. City Attorney Gallaher stated to the board that the refunded money would be spent by Selma city in the construction of a caboose.

The rule will however not heed the suggestion of Assistant District Attorney McMorris that such city sentences should not be placed out on work in the park or in the court house for the benefit of the county. The city misdemeanant prisoners will have to work as always and this was tacitly agreed to by City Attorney Gallaher, who made the statement that Selma pays as any other town the same state and county tax rate, so that extra help is hired to do the work of the prisoners it would have to bear its share of that expense.

So being the labor of its prisoners is really a saving which might be otherwise charged up against it for the maintenance of the prisoners. As it is no extra expense is charged up, however additional forces is employed.
